

not through humanity, but because their interests are suffering."

#### ARMY BADLY NEEDED.

CINCINNATI, Jan. 21.—A special to the Commercial Tribune from Tampa, Fla., says: "Emanuel Silveira, a wounded Cuban, arrived here tonight from Cuba on a fishing vessel. He comes from the field near San Juan, where he was captured by the Spanish army. He is short of cartridges. He has over 2000 men that could be used for his arms. The machete is the only weapon hundreds are armed with. In ambuscade the machete is the Cuban's ready weapon and a terrible one. He confirms the story of January 9, when a Spanish band came upon a Cuban hospital near San Juan, containing 500 wounded insurgents and but to death of all men, even the attending physicians."

Col. San Juan's troops are raiding all that section, though very seldom going into the hills near Rivera's camp. One of his bands was ambushed two weeks ago, and out of 45 men in it only 3 escaped. They are blood-thirsty, and are credited with more murders of women and pacifics than any other band. They raided a small town, twenty-eight miles from Palacete on November 10, and abducted all the women in the place, some fifty in number. Only ten of them have been heard from since. They were captured by a Cuban band January 20.

Silveira urges the Cuban leaders here to send another band once, as the army in Pinar del Rio need arms immediately.

#### THE CUBAN LEAGUE.

NEW YORK, Jan. 21.—The Cuban League of the United States is organizing branch leagues in every town and city in this country of 5000 or more inhabitants. There are 750 such towns and cities in the United States. The object of the league is to call forth an expression of unanimous sentiment of the American people in favor of Cuban independence. The effort is also being made to secure the passage of a resolution in every State Legislature demanding that such action should be taken by the United States as will end the war in Cuba and insure the independence of the island. The league is receiving letters daily from all parts of the country, suggesting ways and means for promoting the cause of Cuba.

#### SMALLPOX IN HAVANA.

HAVANA, Jan. 21.—(Via Key West) The epidemic of smallpox here continues and the daily death rate from all diseases is 35 per cent. or more. It is calculated that there were 5000 cases of smallpox in Havana a year ago. All of the physicians paint the picture of the sanitary condition in awful colors. The mortality is frightful and for several days has been increased to 45 per cent. Jerico also reports an epidemic of smallpox with many victims.

Consul-General Lee wrote last Saturday to Gen. Weyler, asking that Henry Delgado, the American who died at San Ambrosio hospital yesterday, should be transferred to a more commodious quarters, or that he could be allowed to take charge of him so that Dr. Burgess could give him assistance.

Gen. Melquize, reconnoitering the province of Pinar del Rio, found a band of insurgents with 100 new firearms and a large supply of ammunition. C. P. Pendleton, an American news correspondent, has been summoned to Washington to appear before the military committee on Foreign Relations.

Gen. Weyler notified the Cienfuegos planters some time ago that they could prepare their sugar estates for grinding, and several of them had commenced when they received intimations from Gen. Weyler that he was sending a force of 5000 men to Manzanillo and ordered Gen. Prat, at Matanzas, to take charge of the expedition. Gen. Prat has been suddenly ill and asked leave to return to Spain.

It is generally expected that within eight days Gen. Weyler will give orders of a general character looking to the resumption of grinding of cane on the whole island.

Gen. Martin has arrived from Gibara with his aides and will go to Matanzas to take command of the province. Manzanillo reports that an expedition, supposed to be sent to the south coast, has landed in the River Plata on the south coast. No details are given.

#### WILLING TO GRANT REFORMS.

MADRID, Jan. 21.—At the close of yesterday's cabinet meeting Premier Senor Canovas del Castillo declared that although they had full confidence in the success of the military operations in Cuba, the government was prepared to strain every nerve to bring about a decree with that object in view to the Council of State.

#### A NEW JOAN OF ARC.

NEW YORK, Jan. 21.—A special to the Herald from Manila, via Hongkong, says: "Dr. Rizal's widow has gone to Iloilo, where she is regarded as a Joan of Arc. Dr. Rizal was the organizer of the uprising in the Philippine islands. He was shot on December 29, exhibiting great fortitude to the very last."

#### DELGADO'S FUNERAL.

HAVANA, Jan. 21.—Henry Delgado, the correspondent for the New York Mail and Express, who was captured in an insurgent hospital in Pinar del Rio and was brought to Havana for trial some weeks since, who died in the San Ambrosio hospital on Tuesday from an abscess which formed in the thigh, was buried today at the cemetery of Colon under the direction of the American hospital service, of which Dr. Burgess is the surgeon. The service was held at the cemetery, followed by a carriage containing Consular Clerks Roosevelt and Tosca, the representative of the Associated Press, and several newspaper representatives and several resident Americans. The regular service of the cemetery was held at the cemetery. The wife and child of Delgado are in New York. Yesterday's issue of La Lucha was suppressed by the authorities on account of an editorial under the title, "Who Are Responsible?" Legal process has been commenced against the editor.

#### SPANISH OUTRAGES.

NEW YORK, Jan. 21.—A special to the World from Tampa, Fla., says: "Senora Maria Teresa Miguel, who came here from Cuba, having been forced to live here near San Juan, tells a story of great suffering and barbarous treatment at the hands of the Spaniards. She and her husband, with a family of five—two boys and three girls—lived ten miles from Artemisa. They had a plantation of excellent cane and employed more than one hundred hands on the place. Gen. Weyler's first order scared all the white men off. Almost daily bands of Spanish soldiers would come there, insulting the family and taking what they pleased in food, provisions, clothing, and even furniture."

One day Senora Miguel's little boy resisted the thefts. Shortly afterward he was shot down near the house as the troopers rode off. Complaint was made to the commandant but he refused to entertain it.

Other raids were made and one day her husband was killed before her eyes as he resisted an insult to her.

Two daughters were caught away from the house and ill-treated by the Spaniards. Their little boy was shot

while attempting to prevent the soldiers from taking his pony.

All the women servants were abducted one night three weeks ago and the house was fired. Senora Miguel and her daughters then started for Havana. They managed to get on a sail boat but were fired on by the Spanish guerrillas, the youngest girl being wounded in the arm. They were transferred to a fishing vessel and then transferred near Key West to an American craft, which brought them here. Senora Miguel says the Spanish guerrillas kill all pacifics caught two miles beyond the city limits, burn houses and kill all the cattle they cannot take with them. She names more than thirty pacifics, men and women, whose names she has been killed since Christmas. Women are ill-treated whenever found, she says, and the Spanish officers are worse in this respect than their men.

#### AFTER HIS EXCELLENCY.

A LEGISLATIVE COMMITTEE AFTER GOV. BUDD.

They Want to Know What He Did with the Secret Service Fund. Big Printing Bill of the World-BE Economic Executive.

#### BY THE TIMES SPECIAL WIRE.

SACRAMENTO, Jan. 21.—(Special Dispatch.) A self-appointed committee, consisting of one Democratic Senator and two Democratic Assemblymen from San Francisco, who have a grievance against Gov. Budd, are preparing to spring a sensational attack upon the Executive department in the demand for the appointment of an investigating committee to probe the official acts of the Governor.

A resolution is now being prepared for presentation simultaneously to both branches of the Legislature, asking the appointment of a joint legislative committee, with power to compel the attendance of witnesses and administer oaths, with the intent to discomfit Gov. Budd. The committee is making of the \$10,000 special contingent fund, known as the "Secret Service Fund," and why it is that he is printing bills at the State Printing office, that have exceeded by about 200 per cent. those of any previous administration.

It is hinted that the "Secret Service Fund" has been used in detective work on his side of the Fair will contest. Those who are behind the investigation point out that the fund has been used for a year at his command in this fund, where his predecessors had never more than \$2500, and that at one time he drew a warrant for \$5000, at another time, for \$1500, and at another time for \$1000 on this fund.

The record in Controller Colgan's office bears out the assertions of the investigations. In the ledger accounts, under date of July 15, 1895, \$3000 is shown to have been paid to the Governor's office. May 29, 1895, \$1000 was paid, and December 29, 1895, \$1500. Between these dates various sums from \$30 to \$600 were drawn. What the Governor's Democratic enemies want to find out is what this money was used for.

The records of the State Printing Office show an equally bad condition of affairs for the economical Governor. From January 1, 1895, to Jan. 1, 1897, the cost of work done for Budd amounted to \$400,000. He has ordered for 5000 extra copies of an additional message added \$600 more to this, making \$5485 expended on his account in two years.

Budd has put the State to greater expense for printing since he assumed office than all the work done for his predecessors. He has ordered for 5000 extra copies of an additional message added \$600 more to this, making \$5485 expended on his account in two years.

#### FAMINE IN CHICAGO.

Men, Women and Children Starving in Sight of Food.

CHICAGO, Jan. 21.—Men, women and children are starving in Chicago in sight of relief because the county commissioners, who are doing all they can to distribute supplies. The county treasury is rich in its surplus, and there is an accumulation of appeals from the starving, who are in the hands of the hungry. Hundreds of these appeals are more than two weeks old.

The heads of the families were discouraged, then and as a last resort appealed to the county for aid. They have seen their wives and children grow weaker and colder, and no aid has come—no bread and no coal. These men are desperate now.

The county agent is helpless to save these families, who are women and babies. He has relief on hand, but no way to distribute it, because the county commissioners have no money. The hungry are at the door of the county agent, and he is powerless to give it to them. They tell a terrible story, but nobody on earth can tell of the misery as it exists in Chicago today.

#### CARNEGIE HONORED.

Citizens of Johnston Give Him an Ovation.

JOHNSTOWN (Pa.), Jan. 21.—Andrew Carnegie is the guest of Johnston this evening, and his reception on the arrival of the special train from Pittsburgh was a cordial and hearty tribute of honor by a grateful people. The fact that Mr. Carnegie rebuilt the public library here after the flood, and was the largest individual contributor to the relief fund.

At 8 o'clock Mr. Carnegie, as the guest of the Board of Trade, was welcomed by an immense throng of people. Mayor Waggoner and Hon. John M. Rose, president of the Board of Trade, delivered addresses of welcome. In the course of Mr. Carnegie's address, in response, he spoke of the business depression of the past three years, which he attributed to the general agitation against the gold standard.

The Metric System. WASHINGTON, Jan. 21.—It is the intention of the House Committee on Coinage, Weights and Measures to authorize a favorable report on a bill providing for the use of the metric system in the United States. Chairman C. W. Stone has investigated the practical working of the system in Europe and will probably incorporate the results in the report.

## McKINLEY'S CABINET

LYMAN J. GAGE NAMED AS A PROBABILITY.

Rumor Has It on Good Authority That He Will Be Secretary of the Treasury.

#### HORACE PORTER TO BE IN IT.

THE WAR PORTFOLIO IS WHAT HE WOULD LIKE.

Judge McKenna Says California Will Be Represented, but is Reticent About His Own Chances. Canton Pilgrims.

#### BY ASSOCIATED PRESS WIRE.

CLEVELAND (O.), Jan. 21.—Lyman J. Gage of Chicago is the latest addition to the President-elect's official family. He will probably be Secretary of the Treasury.

Horace Porter, who has been considered as any one can be outside of Maj. McKinley himself or his confidential advisers, said that Maj. McKinley had sent an emissary to see Mr. Gage at his home in Chicago and to ask him whether he would accept a portfolio if tendered him. The source from which the authority for the statement comes is beyond question. Further strength to the statement is added, if such be possible, from the fact that Senator Culberson of Illinois, who has been considered for the place, has been dropped, it being the desire of Maj. McKinley that there is no telling what might turn up should the McKinley forces in Illinois attempt to replace him with the present Legislature so badly torn up.

#### GAGE'S FRIENDS AT WORK.

CANTON (O.), Jan. 21.—Although there is no authority for the statement that a friend of President-elect McKinley has gone to Chicago to confer with Lyman J. Gage in reference to his taking the treasury portfolio, it is believed here there have been Chicagoans in Canton investigating Gage's qualifications and claims for the position in the Cabinet. Judge Grosbeck is here.

#### JUDGE McKENNA'S CHANCES.

SAN FRANCISCO, Jan. 21.—United States Circuit Judge McKenna has just arrived in Canton, O., where he went to visit President-elect McKinley. He was this visit, very suddenly made, that disclosed the fact that Judge McKenna will in all probability be offered a Cabinet position.

Judge McKenna left San Francisco a week ago last Monday, went to Canton, remained twelve hours and returned to San Francisco, having consumed just ten days. The return of Judge McKenna was as sudden and unexpected as the long journey across the continent. The Judge had much of interest to say of his flying trip and prospects of becoming a member of the next Cabinet.

He said: "I consider that, too much significance has been attached to my visit. Many changes may occur. There is perfect freedom on the part of Maj. McKinley to do as he pleases. It is perfect freedom on my part. It is difficult to state the exact situation. There are some difficulties in the way of my appointment to a Cabinet position."

He also expressed himself as unfavorable of an income tax, free and tariff reform, and a tariff for silver.

TENNESSEE'S NEW GOVERNOR. NASHVILLE (Tenn.), Robert L. Taylor was today inaugurated Governor succeeding Gov. Peter Turner. Both made brief addresses.

#### DUEL TO THE DEATH.

Rival Lovers Kill Each Other in the Presence of Their Inamoratas.

CYNTHIANA (Ky.), Jan. 21.—News reaches this city of a duel fought in the lower edge of this county by two rival lovers. The duel was fought in the presence of their inamoratas. She had been receiving the attentions of John Dairy and Ben S. Dryman, and the night before she had by mistake promised both men that she would accompany them to church. Dairy arriving first, she went with him. Dryman followed her home, and finding her not there, proceeded to the church. After church was over, Dryman made an agreement with Dairy that the first time they met both were to be prepared with weapons, and the one that was killed left to the other a coffin.

#### FIRE LOSSES.

Boston's Big Blaze—Fireman Badly Injured.

BOSTON, Jan. 21.—The wholesale grocery store of Charles E. Moody & Co., burned at 2 o'clock this morning; loss \$150,000. The building was occupied by J. Baker & Co. and Isaac W. Monroe & Co., wholesale grocers, were badly damaged. Joseph Enos, a fireman, was badly burned and injured internally.

#### ONLY A LITTLE SPARK.

TORONTO (Ont.), Jan. 21.—At 5 o'clock this morning a spark from the dynamo in the Toronto Electric Light Company's building started a fire which resulted in the destruction of the building. The loss is \$150,000, fully covered by insurance.

#### DEFECTIVE FLUE.

LAKE CITY (Colo.), Jan. 21.—Fire in the Occidental House started at 2 a.m. today by a defective flue threatened to destroy a large portion of the town, but was finally stopped by hard work of the firemen and citizens after several buildings were destroyed. The loss is \$16,000. The guests all escaped.

#### ALMOST WIPED OUT.

WHEELING (W. Va.), Jan. 22.—Shortly after midnight fire started in

Mingo Junction, O., a few miles north of Wheeling which wiped out nearly the entire business portion of local industrial town. At 2 o'clock nine houses had been destroyed and the property loss is estimated at about \$60,000.

#### STRIKE HARDSHIPS.

Six Thousand People Destitute at Spring Hill, N. J.

SPRING HILL (N. J.), Jan. 21.—The strike of the mine boys and boys in the Spring Hill Company's coal mines here continues and it is impossible to tell when work will be resumed. The miners' union at the Joggins mine here advised the strikers' committee that they will support the men here financially and in every possible way. The miners of the coal region are also assisting the strikers. The coal strike broke out in the latest slope of the mines last month is still burning and the west slope is threatened. The walls built to check the flames are becoming heated in many places and mining experts here say the east slope is doomed and that the west slope is in great danger. The 6000 inhabitants of the town are nearly destitute.

#### SENATORIAL CONTESTS.

DEADLOCKS IN VARIOUS STATES UNBROKEN.

A Dual House of Representatives Organized in Oregon—Balloting at Olympia, Bozoe, Salt Lake City and Other Capitals.

SALEM (Or.), Jan. 21.—With the assistance of two Democrats the Oregon House of Representatives today completed the organization of the House according to program without a collision with the opposition. There were thirty-three members present, three more than a majority. The opposition made no resistance, and H. L. Benson, the permanent Speaker chosen by the Mitchell men, took his seat beside Temporary Speaker Davis, who was chosen one week ago Monday. After a short session the House adjourned until tomorrow.

The deadlock in the House has been transferred to the Senate. The Mitchell men will begin a fight in that body tomorrow for a recognition of the House organized today. If the Senate should recognize them they claim that since they have created a de facto House they can now proceed to nominate a Senator. McKinley's candidate is seated. If the Senate should not recognize the Benson House the situation would only be a Senate and House deadlock.

#### IN WASHINGTON.

OLYMPIA (Wash.), Jan. 21.—The first joint ballot today for Senator resulted: Turner, 24; Cline, 10; Denny, 25; Danforth, 10; Stump, 10; Baker, 10; Squire, 3; Rader, 3; Ross, 1; J. T. Brown, 4; Newell, 1; Andrews, 1; Van Patton, 1; scattering, 2. Necessary to elect, 26.

#### THE IDAHO CONTEST.

BOISE (Idaho), Jan. 21.—B. Balentine (Pop.) has 23 votes on the first ballot today and 26 on the second. T. F. Nelson (Pop.) got the bulk of the Democratic vote. Dubois got 26 each ballot.

#### IN UTAH.

SALT LAKE CITY, Jan. 21.—The Legislature took one ballot for Senator today with the following result: Turner, 24; Cline, 10; Denny, 25; Danforth, 10; Stump, 10; Baker, 10; Squire, 3; Rader, 3; Ross, 1; J. T. Brown, 4; Newell, 1; Andrews, 1; Van Patton, 1; scattering, 2. Necessary to elect, 26.

#### SOUTH DAKOTA.

PIERRE (S. D.), Jan. 21.—Eight members of the House of Representatives today took one ballot for Senator. The result was: Turner, 24; Cline, 10; Denny, 25; Danforth, 10; Stump, 10; Baker, 10; Squire, 3; Rader, 3; Ross, 1; J. T. Brown, 4; Newell, 1; Andrews, 1; Van Patton, 1; scattering, 2. Necessary to elect, 26.

#### Official Correspondence Between England and Russia.

LONDON, Jan. 21.—(By Atlantic Cable.) Official correspondence between Great Britain and Russia following today shows that the Marquis of Salisbury on October 20 proposed that the Ambassador at Constantinople should formulate reforms to be enforced by the powers. M. Shiskine, the acting Russian Minister for Foreign Affairs, replied on November 18 saying that the Czar had decided that it was impossible to agree to reforms to be enforced against the Sultan. But on November 25 there was a further communication to the effect that the Czar had agreed to the Marquis of Salisbury's proposal and would not object to the Russian Ambassador's relative to coercion should the Sultan prove recalcitrant and refuse to adopt reforms unanimously recommended by the Ambassador.

#### IVORY'S STATEMENT.

He Says the British Police Tried to Entrap Him.

LONDON, Jan. 22.—(By Atlantic Cable.) Edward J. Ivory of New York, who was discharged from custody yesterday at the Central Criminal Court, the crown prosecution having withdrawn the charge of conspiracy to cause a dynamite explosion, called at the office of the Associated Press here today and said: "I have documentary proof that the British officials offered to release me if I confessed to the charge of conspiracy. I am satisfied that the police did not have any power, but professed to have it in order to entrap me. I cannot say anything regarding Tyman and the others. I have never had any connection with any dynamite plot."

"I must say that my prison experience was not pleasant. I go to Dublin tomorrow in order to visit my relatives and I shall sail for New York on

## INDARKEST AFRICA.

A BRITISH EXPEDITION FOULY MASSACRED.

Went Unarmed to Pay Their Respects to a Native King and Were Annihilated.

#### THE BRITISH LION ROUSED.

WARSHIPS ALREADY SENT TO PUNISH THE NATIVES.

Turkish Reforms Insisted Upon by the Powers—Senator Wolcott's Mission—Ivory Makes a Statement.

#### BY ASSOCIATED PRESS WIRE.

LONDON, Jan. 21.—(By Atlantic Cable.) The Evening News publishes this afternoon a dispatch from Lagos, capital of the British West African colony of that name, giving details of the massacre of the British expedition under Gen. R. A. Phillips, by the inhabitants of Benin City early during the present month.

The party consisted of Consul-General Phillips, Maj. Copeland, Deputy Commissioner and Vice Consul, H. C. Campbell, of the consular staff; Dr. H. E. Elliott, medical officer, and Messrs. Powis and Gordon, civilians.

The party was unarmed and proceeding to Benin City in order to make a request for a conference with the Niger coast protectorate and adjoining native territory; Capt. A. M. Bolarson, commandant of the Niger coast protectorate forces; Capt. Malling of the Sixteenth Lancers, an officer of the Niger coast protectorate forces; R. F. Locke, of the consular staff; Dr. H. E. Elliott, medical officer, and Messrs. Powis and Gordon, civilians.

The party was unarmed and proceeding to Benin City in order to make a request for a conference with the Niger coast protectorate and adjoining native territory; Capt. A. M. Bolarson, commandant of the Niger coast protectorate forces; Capt. Malling of the Sixteenth Lancers, an officer of the Niger coast protectorate forces; R. F. Locke, of the consular staff; Dr. H. E. Elliott, medical officer, and Messrs. Powis and Gordon, civilians.

board the White Star steamer Majestic, on January 27.

#### WOLCOTT'S MISSION.

The Senator in Conflict with British Bimetallists.

LONDON, Jan. 22.—(By Atlantic Cable.) The Daily

(CONTINUED FROM FIRST PAGE.)

the Virginia law in order to determine the intention of voters, but to do so, he contended, would be as dangerous as dangerous and far-reaching precedent.

Mr. Crow (Rep.) of Pennsylvania argued that the House should hold to its position until it had heard the other side's case. The will of the voters was supreme, and it was the highest duty of the House to decide what their will was.

Mr. Thomas (Dem.) of Michigan, member of the Election Committee, who joined with Walker in the minority, said that the bill was a dangerous contestant, Yost, advocated the adoption of that report. From what he had seen of the elections in Virginia, he said, he doubted if many more than half of any Democrat had been honestly elected.

Mr. Walker (Rep.) of Massachusetts, in support of the contention of Tucker, submitted an appeal for justice at the end of the nineteenth century, based upon claims made outside of laws, was a startling thing. The only hope for the survival of good and ordered government must rest on obedience to the law. If it was the law, he argued, not the intent of the voter, which should govern.

The majority (Rep.) of Ohio, in reply to Walker, said he agreed it was only by standing by the letter of the law that Tucker could hope to retain his place. It was the law, he said, which should be sustained by the House if that technicality defeated the will of the people.

**"FOREIGN IMMIGRATION."**

**To Keep Objectionable Aliens Out of the Country.**  
(BY ASSOCIATED PRESS WIRE.)

WASHINGTON, Jan. 21.—The compromise Immigration Bill, which has been agreed to by the Senate and passed the House and Senate, and which will come before the two houses for acceptance within a few days, contains several new features which have not before been made public. This section of the bill, dealing with the admission of immigrants from the United States all persons over 16 years of age who cannot read and write the English language or the language of their native country, but who are admitted by the insertions by the word "residents of" before the third country.

For the purpose of testing the ability of immigrants to read it is provided that they shall draw from a box at random one or more words, not less than twenty-five words of the Constitution and write five lines of it as required by the Senate bill. A clause is added to the bill that if the slips are not at hand for use the officers shall select them by the most appropriate and available means at hand, and state in writing the reason the slips are lacking and the substitute test employed.

The plan of Representatives to require each alien to retain and exclude temporary employment in the United States reads as follows: "That it shall hereafter be unlawful for any alien who is not in good faith made his declaration before the proper court of record of his intention to become a citizen of the United States, to accept or perform any public works of the United States, or to come regularly or habitually into the United States by and receive wages for trade or manual labor, for wages or salary, returning from time to time to his own country."

"That it shall be unlawful for any person, partnership company or corporation knowingly to employ any alien who is not a citizen of the United States in violation of the next preceding section of this act, provided that the provisions of this act shall not apply to the employment of aliens by the hands of other employs of vessels, or railroad train hands, such as conductors, engineers, firemen, etc., or to the employment of men, whose services require them to pass over the frontier to reach the terminus of their runs, or to boatmen engaged in the carrying of passengers across the northern border of the United States."

Violations of these sections by aliens or citizens are made misdemeanors punishable by fine not exceeding \$100, imprisonment not exceeding one year, or both, and persons coming into the country in violation of the act shall be deported from the country from whence they came.

The Secretary of the Treasury is authorized to make regulations for the exclusion of aliens for the purpose of teaching news arts or industries under such rules as he may provide.

In addition the Senate bill exempts from the act persons who may enter from Cuba during the disorders there, is retained.

A new section is added to the bill as follows:

"That any alien who shall in violation of this act, or who shall in violation of any future entry into the United States without inspection or through mistake representation, collusion, defraud or fraud, be taken into custody by the properly authorized immigration officers within thirty days after the facts become known to the immigration authorities, shall be subject to inquiry at the most convenient place conducted according to section 5 of the Immigration Act of March 3, 1893, shall be held until the proper law for alien immigrants, upon their first arrival."

Instead of taking effect three months after passage the bill is amended to take effect July 1, 1897.

**WHITE ROSE DINNER.**

**President and Mrs. Cleveland Entertain Guests.**  
(BY ASSOCIATED PRESS WIRE.)

WASHINGTON, Jan. 21.—The second of the series of white rose dinners was given by President and Mrs. Cleveland at the White House tonight, the diplomatic corps being the guests. The number accepting invitations was such that the long corridor leading to the mansion had to be used for the occasion. The dining table was decorated with a profusion of La France roses and bridesmaid roses and ferns. The marine guard in blue uniforms lined the guests included most of the foreign ministers, many of them accompanied by their ladies, Secretary and Mrs. Olney, Senator and Mrs. Sherman and others.

**No Boose for Lo.**

WASHINGTON, Jan. 21.—The Senate committee on Indian Affairs today authorized a taxation on the bill prohibiting the sale of intoxicating liquors to Indians, and it was afterwards reported to the Senate by Sen. Tamm. The bill has already passed the house.

**A Model Turret.**

WASHINGTON, Jan. 21.—Secretary Herbert paid a visit to the Washington Navy-yard today to inspect the plans of Constructor Hickman, chief of the construction bureau for the turret of the battleships Illinois, Alabama and Wisconsin. The Ordnance Bureau had submitted a design for the turret, but after a careful examination of the big model, Secretary Herbert decided to construct the turret on the plan of the construction bureau. These provide for an unbalanced turret, with inclined floors

less to Save Them.

**A MESSAGE IN A BOTTLE TELLS  
HOW THE BARK LADRAN FOUND-  
DERED IN A STORM.**

Crew Took to Boats but Are Sup-  
posed to Have Been Lost—Nor-  
wegian Bark Caught in a  
Typhoon.

(BY ASSOCIATED PRESS WIRE.)

NEW YORK, Jan. 21.—The three-masted schooner Naham Chapin, of Rockland, Me., coal laden from Baltimore to Boston, went ashore near Quogue, L. I., at an early hour this morning, and her entire crew, consisting of nine men, was lost in sight of hundreds of people who had gathered on the beach, but were powerless to render assistance.

The vessel went ashore at 4:30 a. m. At that hour there was a thick rain, and a cold wind blowing from the north. There was a mist sufficient to make objects very indistinct at a distance of 200 yards. The wind was blowing from the southeast with a velocity of about thirty miles an hour and a surf was rolling up on the beach. The vessel pounded over two hours after she first struck and the waves drove her gradually in shore and then she went to pieces, crumbling before the fury of the breaking waves as though she were an egg shell.

About 6 o'clock Capt. Charles Merriam, of the Quogue life-saving station, assisted by his men, brought the survivors ashore in a foggy night. Just opposite the vessel, but when they shot out their life line it was too late to be of any service. The sailors, who, from the moment that one of the patrolmen had sighted the schooner, were in the rigging dropped off Naham, were seen to be clinging to the rigging, and soon after one of the bodies, that of a big Swede, was washed ashore.

The life-savers worked manfully. The first line fired from the mortar fell across the yards but slipped away over the side and was lost. The second line, fired from the mortar, was lost. The sailors were unable to see it and it was lost. A third attempt was also ineffectual and then the crowd of villagers who gathered on the beach saw the last of the men fall from the rigging and disappear in the surf which at this time was running several feet high.

The life-saving crew made two attempts to launch a life-boat but they were repulsed each time by the breakers. The men, however, were encouraged the brave fellows in every possible manner, the hardy men had to be rescued.

There were in all nine men seen on the ill-fated vessel. It was generally surmised that the first body washed ashore was that of the mate, the first mate. Three hours after the first struck, the schooner went to pieces.

Up to noon, when the fury of the storm had abated somewhat, no other bodies were sighted. There is no doubt that all on board perished.

Quogue is situated about thirty miles east of New York, and is five miles east where the ocean touches the mainland beyond Great South Bay. The schooner Naham Chapin was a three-masted schooner built at Rockland, Me., in 1882. She registered 567 tons, was 145 feet long, 35 feet beam and 15 1/2 feet draft.

A dispatch from Fire Island says the storm yesterday afternoon was the severest of the winter. The schooner was driven ashore by the storm on the outer bar about 4 o'clock. In four hours from the time she struck she went to pieces.

The crew of the schooner shipped at Boston last November were: S. E. Arey, captain, Malden, Mass.; A. E. Arey, second mate, Cambridge, Mass.; seamen John Heiber, Albert Lowe, R. O. Anderson, Victor Strachen, Oscar Oscar, Antonio Auyanch.

**LOST ON LONG ISLAND.**

NEW ORLEANS (La.) Jan. 21.—The lugger Pharon arrived today, having on board Capt. H. Engleman and thirteen men, being the officers and crew of the Dutch bark, the bark, which was lost on the partly submerged Long Island. The bark belonged to her commander, she sailed from St. Petersburg, Russia, on December 10, 1901, for New York, and was lost on the coast of Long Island, Holland.

**BOTTOM UP.**

NEW YORK, Jan. 21.—Officers of the steamship Galileo which arrived today from Rio de Janeiro, report that on the night of January 16, while in latitude 25.34, longitude 61.46, they came close to a large wooden vessel bottom up. A short distance away, but the big steamer ship, and it was evident that the two had been in collision. The night was so dark that the captain could not see the name of either craft.

**MESSAGE IN A BOTTLE.**

**Bark Ladrans Foundered at Sea Last Week.**

(BY ASSOCIATED PRESS WIRE.)

ST. AUGUSTINE (Fla.) Jan. 21.—A bottle was picked up on South Beach seven miles below here, which contained a message stating that the bark Ladrans had foundered at sea on January 15. The message was written on several small sheets of paper, and was signed by Capt. Gonzales. It was a log of the vessel from the time she left port until she foundered.

From St. Augustine, the bark Ladrans left Boston, January 3, in command of Capt. Gonzales, and manned by a crew of twelve men. On January 15 the vessel was lost, but the carpenter managed to partially stop the influx of water. On January 14, however, the water began to pour in, and the hold was a great volume. The pumps were manned, and the men worked day and night, but at noon on January 15 the water was so high that the vessel was doomed. The captain and crew then took to the boats, and had hardly got clear of the vessel when she went down. The message concluded: "We have little food and water, and must perish unless soon picked up."

The message was found on a piece of bark that the bark went down during the gale that prevailed off the Florida coast last week. The message was also expressed on the bark, and the crew were swamped in the same gale.

of the crew of the wrecked vessel  
which was caught in a typhoon and  
sprung a leak. While trying to make  
the port of Tahiti, the Jabez went  
aground on a bar and was abandoned.  
The captain, Selvezen, remained at  
Tahiti. The Jabez sailed from Syd-  
ney for Rotterdam last August with  
a cargo of hard woods.

**Disabled Steamship.**  
NEW YORK, Jan. 21.—Nothing can  
be seen from Sandy Hook this morn-  
ing of the steamship Alvena's deck-  
houses. Parts of her masts, stack and  
the point of the bowsprit are the only  
things visible; seas are washing be-  
tween these.

**SETTLING IN THE SOUTH.**  
**Immigrants Pouring into Dixie from  
the Northwest.**  
(BY ASSOCIATED PRESS WIRE).  
**BIRMINGHAM (Ala.) Jan. 21.**—Since  
the first of January there has been  
a marked increase in the tide of im-  
migration. This movement extends  
from the Ohio River to the Gulf. It is  
limited to no particular section, but  
the home-seekers appear to be locat-  
ing in North Alabama, Georgia and  
Tennessee. The new settlers come prin-  
cipally from the Northwest. The prac-  
tical result of this colonization is  
manifested in various sections. Trade  
organizations are giving particular at-  
tention to this business, and it is evi-  
dent that there will soon be united ac-  
tion in the South to closer trade re-  
lations with the Northwest. An associa-  
tion of the leading business men had  
just arranged for a permanent South-  
ern bureau in Chicago. It is proposed  
to cooperate in promoting the Tennes-  
see centennial, which will attract many  
people to the South. Arrangements  
have been made to make the Chicago  
offices the headquarters for adver-  
tising the South and drawing the at-  
tention of the business men of the  
Northwest to the value and importance

## WHO STABBED CUZNER?

## CORNICER MAKER REFUSES TO TELL WHO CUT HIM.

Badly Wounded by an Enemy Who Used a Knife—Says He Will Have His Revenge—Detectives Working to Discover the Assassin.

Police detectives are endeavoring to unravel a mysterious stabbing affair which occurred near the corner of Fourth and San Pedro streets early last evening.

The affair is shrouded in mystery and the lips of the only man who can throw any light on the matter are sealed by a determination, as he expresses it, to "take the law into his own hands and cut the heart out of the fellow."

Mark Cuzner, a cornice maker employed by Fisher &amp; Booth, is the victim, and it is almost a miracle that he was not instantly killed. Shortly before 8 o'clock last night a message was received at police headquarters to the effect that a man had been held up and stabbed near Fourth and San Pedro street.

Clerk Hensley sent Officer Robbins to the scene at once, but when the officer arrived he could learn nothing about the matter.

Soon after he left the station Cuzner, accompanied by two friends, drove to the Receiving Hospital in a hack. Blood was flowing copiously from an ugly gash fully three inches long in his left cheek. His clothing was bespattered with the sanguinary fluid, and it was found that he had been stabbed in the left breast, just above the heart.

Police Surgeon Hagan was soon on hand, and he made an examination. He found that the facial artery in Cuzner's cheek had been severed by the knife-blade. When the wound in the breast was probed, the instrument went in fully three inches, but did not enter the cavity, and it was thought that the blade had followed a rib. Cuzner was drunk and ugly, and it required two men to hold him while the wounds were being dressed. Six stitches were taken in the wound in his cheek.

"Yes, I know who did it. I was jumped on and carved, but it wasn't done right. The law won't deal with that fellow. I'll do that. I'll cut the heart out of the fellow."

After Cuzner's wounds had been dressed, he was removed to his home at No. 614 East Sixth street. Detective Hawley is working on the case. Dr. Hagan said that while Cuzner's wounds were serious, they would not prove fatal.

[Somerville Journal:] "That fellow puzzles me—I can't make out whether he's a philosopher or a fool."

"That's easy to find out."

"How?"

"Call him the latter. If he makes a fuss he isn't the former."

## STRESS OF HARD TIMES.

## A DES MOINES SAVINGS BANK CLOSES ITS DOORS.

President of a Closed Louisville Bank Arrested—Receivers Appointed for a Large Wisconsin and North Dakota Firm—A Phoenix Failure.

BY ASSOCIATED PRESS WIRE.

DES MOINES (Iowa), Jan. 21.—The German Savings Bank of this city has assigned to H. T. Blackburn, Capital, \$75,000; assets, \$611,000; undivided profits, \$11,000; deposits, \$540,000. The bank opened this morning with only \$500 on hand. Very little money came in, and when William Mussen presented a check for \$10,000 there was not enough to pay it, so the bank closed its doors. Depositors will be paid in full, but the capital stock will be wiped out entirely and an assessment will be made. The failure was caused by inability to collect from borrowers, most of whom were small trades and merchants.

## BANK PRESIDENT ARRESTED.

LOUISVILLE (Ky.), Jan. 21.—National Bank Examiner James Escott has sworn out a warrant for James M. McKnight, president of the German National Bank, which was closed Monday by order of Comptroller Eckels. The warrant charges a violation of the national banking law, and was placed in the hands of Deputy Marshal Blackburn. Examiner Escott will not talk about the warrant.

McKnight was also president of the Germania Trust and Safety Vault Company, for which a receiver was appointed yesterday.

McKnight appeared at the office of United States Marshal Blackburn at 2 o'clock and surrendered.

## RECEIVER APPOINTED.

WEST SUPERIOR (Wis.), Jan. 21.—A special from Madison to the Telegram says Judge Bunn yesterday, on complaint of the Bellis Bag Company of Superior, appointed John Russell of Valley City, N. D., and Arthur Miller of Superior receivers of the Russell Miller Company property in Superior.

The same receivers were appointed Tuesday by North Dakota Judge for their property there. The officials here say the receivership is not on account of financial difficulties, but through disagreement of stockholders. The company was incorporated in 1892 with \$400,000 capital. John Russell is president, Arthur Miller vice-president and manager. The company operates one of the largest plants in the city. The company's articles of incorporation were recorded at Madison, Wis., and Fargo, N. D., hence the necessity of applying to the courts of both States.

## HIS SECOND FAILURE.

PHOENIX (Ariz.), Jan. 21.—E. H. Winters, dry goods merchant, assigned this evening to A. L. Henshaw. Liabilities about \$25,000; assets claimed to be largely in excess. It is his second assignment within three years.

## BANKS PERTURBED.

DES MOINES (Iowa), Jan. 21.—The banks of Des Moines have all fortified themselves against all dangers of a run tomorrow, following the failure of the German Savings Bank. Fully \$600,000 will be received tomorrow from Chicago and other points.

## ICE CREAM FOR ROUND TRIPS.

How the Delicacy is Packed and Carried on the Ocean Liners.

Ice cream has such a peculiar power of disappearing, or rather of speedily resolving itself into a substance which believes its name, that it might seem ill-adapted for an article of export. Yet when properly packed it may be kept for weeks, and even months. This being true, it can be and is transported by land and water to great distances. At the ocean steamer line, the cream, which is to travel thousands of miles before being used, is made in precisely the same way as that for the domestic trade, and there is practically no difference in its taste after weeks of freezing.

All steamers have a "cold room" in the hold, in which is placed a huge refrigerator made especially for the purpose of holding ice cream. It consists of a square wooden box, very heavily built, and lined with zinc. Within this is a square receptacle for ice cream, much smaller than the inside of the box, so as to allow plenty of space for ice all around it. The ice cream is brought down to the steamer in large tubs, each containing four or five at up in the usual oblong truck bricks.

The tubs are taken on board the vessel and undressed. One by one the quart bricks are packed snugly away in the great, square receptacle in the refrigerator. These cans, as they are called, are very light and strong, and the largest, such as is used, for instance, on the steamer New York, containing about 550 quarts. Previous to the filling, a solid mass of cracked ice and salt has been packed into the space between the sides of the can and the box walls. The employees of the ice cream company direct the ship's hands as to the proper replenishment of this ice and salt, a process which must be gone through each day. The temperature of the cream is kept in the neighborhood of zero all the time. When needed for the table the bricks are taken out through a small door in the top of the box, that there may be as little exposure as possible to the comparatively warm outside air.

Although the ice cream thus shipped is in almost every case meant only for use aboard the steamer, there is at least one company in this city which has customers in the West Indies, and thus actually exports its wares, in the common meaning of the word. The trade is small as yet, and was brought about entirely through the steamship companies.

Sending ice cream from this city out into the country by rail is also an important branch of the business. The distances are far more limited than when it can be sent by water owing to the amount of the express charges. The process also is simpler, for on account of the rapidity of the transportation, no refrigerators are necessary, and the tubs are placed directly upon the cars. Towns and country freemen advertised the method of which are warranted to be lightning-quick and infallible, the number of people who make their own ice cream is comparatively small. Many have tried it, and many have failed. After a course of watery or gritty concoctions, which were only an extremely faint resemblance to the desired article, the amateurs have usually returned to the kind manufactured by some well-known metropolitan firm.

[Tribune-Bits:] Lady. And you escaped from the wreck?

Indignant Seaman. Yes, mum.

Lady. How did you feel when the waves broke over you?

Seaman. Wet, mum; werry wet; but now, mum, I feel dry—werry dry.

## A REPORTERIAL CLASSIC.

## The Wonderful Bit of Work of a Reporter.

## THE WEATHER

U. S. WEATHER BUREAU, Los Angeles, Jan. 22.—At 5 o'clock a.m. the barometer registered 30.11; at 6 p.m., 30.08. Thermometer for the corresponding hours showed 54 deg. and 58 deg. Relative humidity, 5 a.m., 48 per cent.; 6 p.m., 42 per cent. Wind, 5 a.m., northeast, velocity 6 miles; 6 p.m., west, velocity 1 mile. Maximum temperature, 75 deg.; minimum temperature, 47 deg. Character of weather, clear.

## The Games

## ALL ALONG THE LINE.

A man who claimed to be a professional humorist was committed to the Highland asylum yesterday from San Bernardino. The "funny papers" have long contained evidence that we were coming to this.

An exchange affects to discover a correlation between the divorce suits of the winter and the bathing suits of the summer season. This novel but hardly satisfactory explanation of the divorce question will, if there is no objection, be referred to the Hurled directors' Committee on Suits.

The dispute between the Southern California Railroad and certain squatters over the right to occupy water-front lands in San Diego may prove serious, as some of the squatters threaten to resist eviction. The merits of the dispute are not clearly discernable, and it seems doubtful that either party to it has any good claim to the land.

Santa Barbara has adopted an ordinance prohibiting the selling of sidewalk-walks with tobacco juice. Los Angeles has a similar ordinance, and although no arrests have been made under its provisions, there seems to be a great improvement in the condition of the walks. The law is not strictly obeyed, because habits are not easily thrown off, but most men seem to be more careful, for nobody wants to be arrested for such an offense.

It is reported that under the new order of things at the City Hall, the dingy, dark and dirty office rooms in that building are being transformed by the magic use of soap, carpets, kalsomine, telephones and the like, into bowers of beauty befitting the cultivated tastes of their present occupants. The hard lot of the office-holder is so well known and sympathized with that this attempt to relieve the situation of its somber setting will hardly fail of receiving the laudation to which it is doubtless entitled.

The Non-Partisan Taxpayers' League of San Bernardino appears to be in a fair way to split on the reef of reform. Most of the Executive Committee thought they should steer for the shallow waters of economy, but a small fraction of the crew caught the others napping and shifted the helm. Now there is a row on as to who shall remain in command, and each party asserts that it is chosen the proper channel. While the captains are disputing about the true course, the Taxpayers' League is drifting on the rocks and is threatened with shipwreck. When will reformers improve on the methods of the average politicians, whom they abhor but imitate?

## POMONA.

## A Favorite Rendezvous of the Genus

POMONA, Jan. 21.—(Regular Correspondence.) There was a commissioner's sale, a mortgage foreclosure, of the G. W. Cox five-acre orange ranch opposite the Becket orange grove on East Holt avenue here today by Al H. Turf. The property was knocked down at \$80 to Lawrence Fleming, who had indorsed the note to the bank.

It is said that during the late rain-storm the extensive barn and hay-mow of Louis Phillips, between this place and Spadra, served as a general rendezvous for some forty or more tramps, who had flocked there from different points in this valley, to protect themselves against the wet and cold.

In fact, for several years this has proven a veritable Mecca of the average poor fellow "on the road," for all his hopes in the way of a haven of rest against storm and cold. It is known to them all, and here they congregated, dwell and feast in the peaceful sunshine becomes once more inviting and they lie themselves in smaller groups to different points of the compass. It seems that sympathy serves on the part of the owner for these unfortunates and an eye to the safety of his property have combined to stave off any objection on his part, and in return for this action on his part these "knights of the railroad ties" apparently take great caution in preventing any destruction of the property by fire. Another great rendezvous of these Southern California foot tourists is the old pipe works alongside the eastern limits of the Southern Pacific yards. Between the two resorts quite a brigade manage to be almost always on hand during the severer weather in the winter months.

TRAMPS GO THROUGH A STORE. Two tramps stole a few articles of merchandise to the amount of \$5 or more from the Spadra store on Wednesday morning, while the proprietor, a woman, was temporarily out of the store-room. Later in the day a man, who is supposed to be one of the guilty parties, was arrested by a Pomona constable.

The man, Thomas Morgan, arrested for disturbing the peace, who was to receive his sentence this morning, was given sixty days by Justice E. Barnes before whom he was tried on Wednesday.

In the local amateur minstrel club, which will give an entertainment here Friday and Saturday evenings, there are thirty-seven members, a chorus of fifteen voices and seventeen instrumental places.

The death of William W. Seacore, an old member of the G.A.R., who served three months in the Eleventh Indiana Infantry and three years in the Fifty-first Indiana Infantry as a volunteer, occurred here this morning. A telegram was sent to relatives in the East by the surviving wife today, and it is probable the funeral will be held tomorrow.

[Exchange:] "Ah," observed the bystander, "learning to ride the bicycle, I see. How are you getting on?" "Sometimes get a crane to lift me on," she remarked, "and at other times I fall off the house into the saddle." And then she tried to mount and ran into the lamp-post again.

## WHAT CUBA NEEDS.

## MONEY, ARMS, AMMUNITION AND MEDICINES.

The Patriot Army consists of Seventy-five Thousand Men, More Than Half of Whom Are Unarmed.—Recruits Not Needed at Present.

A Los Angeles man who has had some experience in military matters and who would be willing to take a hand in Cuba's struggle for liberty addressed a letter to Joaquin Fortun, agent of the junta at Jacksonville, Fla., a short time ago, proffering his services under certain conditions and asking what inducements were being offered for the enlistment of men in the Cuban service. He also acquainted Señor Fortun of the escapades of one "Colonel" Nelson in this city and inquired whether "Colonel" Nelson or any one else was authorized to enlist men or collect money here in the West for the insurgents. Señor Fortun's reply was received yesterday. It was in the form of a circular letter, accompanied by the following personal note:

"I can positively affirm that in every case where money is demanded as a condition, there is fraud—and I can likewise state that we are not recruiting men in any part of the country." The circular which is intended as a general reply to the numerous letters addressed to the junta proffering aid, reads as follows:

"To Our American Friends: Unable to answer separately each of the many hundreds of letters I receive from friends all over the United States, some seeking information as to how to join the patriot army of Cuba, others asking advice as to the most practical means of aiding the noble cause of Cuba, I am forced to make the following suggestions, in a general way, to all sympathizers with Cuba's heroic struggle for liberty:

"First—Cuba, at present, does not need men, but money, arms, ammunition and medical supplies. The patriot army is made up fully of 75,000 men, of whom more than half are unarmed. "Second—Money, arms and ammunition can be sent to any of the following parties:

"T. Estrada Palma, No. 55 New street, New York city.  
"E. J. Guerra, No. 192 Water street, New York city.  
"J. A. Hual, Jacksonville, Fla.  
"Fernando Figueredo, Tampa, Fla.  
"Third—Money, medicines and surgical instruments can be forwarded to the Cuban Red Cross under these two addresses: "Club Oscar Primelles," No. 56 New street, New York city; "Club Federico Latorre," Tampa, Fla.

"Show, therefore, your sympathy for our great cause—giving us whatever help you may, through the above-named representatives of our cause, asking others to do the same, interesting churches and other charitable institutions in our needs, organizing collections among the people by the ladies and gentlemen of the best society, devising entertainments for the benefit of the cause, and the help of the press to start subscriptions and to give practical hints to the people. Make your sympathy and good wishes substantial by sending them into the money we need to our supplies and transport them to Cuba.

"For all these enterprises respectable parties should be duly authorized by our representative in the United States, T. Estrada Palma.

"Do not destroy this circular, but hand it to some one who may be moved to do us some substantial good."

GERMAN EMPEROR'S BOASTS.

One of Them is the Honesty of His Officials.

(Harper's Weekly.) One boast the German is never weary of making in regard to his government as compared with that of the United States, namely, that the officials of the fatherland are distinguished, if not for enterprise, at least for honesty. In the main, this is true, but there are exceptions. The late Chancellor Bismarck had no sooner got his imperial machinery in running order, twenty-five years ago, than he introduced a policy of his government one of the most odious features of Russia, namely, the secret political police. He set aside large sums of money with which to pay informers, spies, and a class of wretches, unknown in America, called agents provocateurs. The business of these last gentlemen was to organize disturbances among Socialists, in order that the government might have an excuse for making arrests of such persons as were called enemies of the empire, or such as we would call enemies to the Bismarckian policy.

The fruit which this tree has borne is very bitter. A recent trial in Berlin disclosed the painful fact that this secret police, intrusted with the most delicate of all political tasks, has been using its powers for the purpose of advancing the interests of a court clique as opposed to the constitutional government of the country. Bribery, forgery, perjury, have been used in the hope of damaging Baron Marschall, who is head of the German Foreign Office and a man wholly above the vulgar intrigues that flourish in the atmosphere of a court. But perhaps the saddest feature in the case is the side-light it throws upon the German press. The two newspapers are not models of purity, but it would be difficult to name a New York paper capable of doing such dirty work as is expected of so-called official and semi-official papers in the land of Schiller and Goethe. When we in America read that the German press attacks this man or praises that one, it does not mean that the editors of these different papers have reached an independent opinion in regard to their relative merits, but it too frequently does mean that they have been instructed by the political police, or some other organ of state, that they must say this, that, or the other. I doubt if in all Germany could be found three great daily newspapers equal to the Staats-Zeitung, merely because it is sent to them by a press agent of the secret police.

Making Young Trees Productive. [American Cultivator.] It is the natural desire of every orchardist to get his trees into bearing condition as soon as possible. Few know how to do this. The common method of giving the trees a great amount of manure postpones rather than hastens fruit-bearing. Most young orchards are too rich to bear well, and this is especially true so long as soil fertility is made at once available by cultivation. This excess of fertility promotes leaf and wood growth. Only when it is checked will trees begin to put forth fruit buds and bear fruit. But a little extra manuring may cause the fruit buds to fall to set fruit, and the tree will grow more vigorously than ever and not bear any fruit. Only when the bearing habit is fully established is it safe to manure freely, and even then mineral fertilizers should have the preference. For very vigorous young trees old enough to begin to bear, but which will not, severe root pruning so as to lessen the supply of sap may be sometimes resorted to with profit.

## Good Blood

Is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

## Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

## J. T. SHEWARD

113-115 N. SPRING ST.

Some men happen to find and locate a valuable mine. Others will pass over the same grounds for years and never find anything. Things some times come to men when they least expect it of a valuable nature. It is not the best men who always have smooth sailing. It is the wise man that generally gets left. We have struck a gold mine in a new Corset for one dollar. The manufacturer who made the Corset knows he has hit the nail square on the head. We believe it is the best Dollar Corset ever manufactured by any one. Better Corsets can be made at a higher price but for a dollar this Corset stands right up to the top notch.

For 50c we show another Corset that is chock full of merit. Good materials, fine fitting, well made, as good as some Corsets that sells for double the money.

The Underwear Department is selling good Night Gowns for \$1. They have been selling for \$1.25, \$1.50 and \$1.75; odd lots we want to close.

Don't forget the big reductions in the Cloak Department. Some particular values for present wear in Ladies' Capes. Reduced prices to close the season.

There is no mistake about Desmond's lead in the bargain race. His stock of hats, shirts, neckties, gloves, etc., settled everything. His goods sell well because he knows where and when to buy and how to select them. This fact is the secret of his leading prices. His figures please, surprise and captivate, especially when he gives you an elegant walking cane with every purchase, or a strictly up-to-date necktie (any style), with every suit of underwear purchased, at his establishment in the Bryson Block, 141 South Spring street. Any necktie in Desmond's show-window given away this week with every suit of underwear bought at his store, 141 South Spring street.

I wish to inform my many friends and patrons that I have this day resigned my connection with the Tabor Carriage Works, as Manager. Having been in business for the past nine years in the same location, in this city, and for more than four years the manager of the said works, I thank the public for their confidence and support, and trust I shall receive a share of their patronage in the future as I shall immediately open business on my own responsibility.

Have you seen the All bicycles at 435 South Spring street? If not see them, the Eldorado, the Mason and the W. S. C. H. all high grade, the equal of any wheel in the United States for less than half-price. This sale will last only a few days.

Stereographic dissolving views on Holland and Scandinavia by Rev. William Johnson, M. A., First Presbyterian Church, Figueroa and Twentieth, tonight. Admission 10 and 25 cents.

Jobbers and bicycle dealers will do well to see C. M. Stevens & Co., before ordering from eastern houses. Just see their wheels and get quotations, 435 South Spring street.

No wonder agents find it difficult to get \$100 for a wheel. You can get one equally as reliable, the equal of any from C. M. Stevens & Co., 435 S. Spring street.

Over 100 large yellowtail were caught from the new wharf at Long Beach yesterday. Take the Terminal Railway. Round trip, 50 cents.

If you want a high-grade bicycle don't buy until you see what you can do at 435 South Spring street, C. M. Stevens & Co.

Concerning bikes, see the \$75 wheel for 60 cents; certain grocers keep them. You will not always have the chance.

A slight worth seeing: Three carloads of bicycles at C. M. Stevens & Co., auction rooms, 435 South Spring street. A beginners afternoon class in physical culture at Y.M.C.A., 107 South Spring street, Saturday at 4 p.m.

Eddie Eisen, the five-year-old son of Mr. and Mrs. A. Eisen met with a painful accident on Tuesday afternoon, resulting in a compound fracture of his arm.

The annual meeting of the State Mutual Building and Loan Association was held yesterday. Between fifty and sixty members were present. The old Board of Directors, consisting of W. G. Cochran, J. M. Witmer, Frank A. Gibson, A. E. Pomeroy and C. J. Wade, was reelected for the ensuing year. A dividend of 10 per cent was declared. The association made 326 loans last year, the majority of them on new buildings erected in and about Los Angeles. The association has now paid-in capital of over \$500,000.

## SIX BAD LITTLE BOYS.

LOCKED UP ON SEVERAL CHARGES OF BURGLARY.

Accused of Robbing Three Stores and a Fruit House—One of the Lads the Son of a Preacher—An Alleged Confession.

Half a dozen little boys spent last night behind the bars of the City Jail, and if what the detectives say is true, they were in their proper place. No less than four charges of burglary are made against the juveniles, and one of them is said to have made a clean breast of the whole transaction.

The little prisoners range in age from 14 to 17 years, and one, at least, of them would naturally be expected to have "turned out better." He is the son of a Methodist minister.

Detective Goodwin made the arrests yesterday, finding nearly all of the boys at their respective homes. Tuesday night Mrs. Mills's delicatessen store at the corner of Thirty-second and Hoover, was broken into and a quantity of candy and some soda water were stolen. Mrs. Mills discovered the violation when she opened the store Wednesday morning, and she reported the matter to the police.

Detective Goodwin was given charge of the case, and he got on the track of the burglars, but was considerably surprised to find that they were boys. In the course of his investigation, Goodwin also learned that the same boys were not novices in the art of burglary.

About a month ago a drug store on Jefferson street here, Wesley avenue, was broken into. The burglars made off with considerable cutlery. The detective, it is asserted, learned that members of the gang, composed of Robert Burke, Rolla Grace, Harry Pining, Harry McCourt, Earle Kline and another lad whose name was withheld by the police, were implicated in the job. It is said that he also obtained evidence that Burke, Pining and Kline robbed a candy store at the corner of Thirty-seventh and Hoover streets several weeks ago, of a good deal of candy.

Still another burglary is credited to members of the gang. A fruit storehouse belonging to F. C. Howes was robbed of a quantity of fruit yesterday, and McCourt, Pining, Grace, Kline and the boy whose name is withheld are said to be responsible.

All of the boys were arrested yesterday, the last one being Earle Kline, the preacher's son, who was arrested at his home on Theo street about 3 o'clock last night. He is a neatly-dressed, good-looking boy, and when shown his record in the juvenile ward of the jail, asked Jailer Richardson if he could "please have a white sheet."

TOURISTS WILL BE DELIGHTED With the trip around the Kite-shed track. Tickets permit stop-overs, or you can make the trip in a day. Observation buffet car leaves at 8 a.m., returning at 6:30 p.m., stops being made at both Redlands and Riverside for drive and sight-seeing. Full particulars at Santa Fe ticket office.

ORANGE BELT LINE Of the Southern Pacific Company. Best line by which to see all of Southern California. Leave Los Angeles 8 a.m.; three hours in Redlands, one hour in San Bernardino, two hours and twenty-five minutes in Riverside; arrive Los Angeles 8:20 p.m. Tickets admit of stop-over.

### WORK WANTED.

APPEAL TO THE COUNCIL FROM THE GOOD SAMARITAN.

One Thousand Men Out of Work and Suffering, and Capt. Frazier Unable to Feed All of Them at the Mission.

Capt. Frazier of the Good Samaritan Mission finds that his resources are insufficient to relieve the distress of all who apply to him, and he sends this appeal to the city government:

LOS ANGELES, (Cal.) Jan. 20, 1897.

To the Honorable Council of the city of Los Angeles—Gentlemen: There are today in this city of Los Angeles about one thousand men of both the citizen and migratory bodies who are penniless and suffering because of their inability to obtain work enough to pay even the cost of a day's board and night's lodging. This figure is not idly guessed at but is a conservative estimate based upon information gathered from every likely source.

Many of these men manage to find shelter with friends and without having to appeal to any public institution. A large number, however, have been forced to depend on charity and upon one charity in particular—the Good Samaritan Mission.

This institution is now at its own expense caring for at least seventy-five men who have given ample and convincing proof that they are honest, able, reliable, industrious, and men of good habits. Not only do they represent nearly all the trades but a few among them have been educated for professions.

It is quite true that there are some two hundred others of unestablished character who are benefited by the mission, but in the main these are of a class that has learned to cope with every condition and they are able to earn 5 cents required for a bed or a meal.

The seventy-five I have mentioned do not in any way belong to the "tramp" class and are in every sense worthy of all the assistance they have received, are receiving or may receive.

Besides these working men there are several poor families that look not in vain to us for their food.

If it wasn't for these unfortunate who are unable to pay, the institution would be self-sustaining. As its head I have given away almost every day since inception, and to worthy men only, meals to the number of 120 daily, beds to the number of forty and food to families to the value of \$150. This expense amounts to about \$9 per day, and we find that that is the amount that we are daily running behind.

The mission cannot continue to help these people and live, and unless some way is provided by which those who have not the money are given the chance of earning it, our doors must close against them. Such an event would cast seventy-five men, whose natures will not permit them to beg, out upon the city. They will be compelled to seek shelter in the barn or box-car, in which case, the police doing their duty, they will be landed in jail and thus the taxpayer forced to pay for their keeping. As to just how they will get their bread and butter should they escape the jail, God only knows. I will not attempt the miserable picture here, trusting that the members of your honorable body realize that it would be a sad one indeed.

Therefore, gentlemen, I pray that you look into the matter at your very earliest convenience to determine whether or not your honorable body will be able to do anything in the way of providing work for these poor fellows.

I have exhausted every means in my power to help them. If I continue feeding and housing them at our own cost the mission must go to the wall. All these men ask for is work. The need is immediate and unless something is done for them they must meet the fate I have told of; they must starve to death or go to jail. I make this appeal only as a last resort.

Again praying that you give this important matter your immediate attention, I am, sincerely yours,

J. A. FRAZIER, Manager Good Samaritan, No. 759 Upper Main street.

We, the undersigned, citizens of Los Angeles, fully indorse the above petition.

Col. J. W. Pender of Mojave is at the Hollenbeck.

A. E. Babcock of Coronado is at the Hollenbeck.

George E. Pearson of New York is at the Nadenau.

H. Temple and wife of St. Louis are staying at the Westminster.

S. E. Gardner and wife of Chicago are guests at the Nadenau.

F. Coblan, wife and maid of Mexico are guests at the Van Nuys.

The Misses Furney of Philadelphia are guests at the Westminster.

Mrs. Garsthorn and Miss Garsthorn are registered at the Hollenbeck.

Mr. and Mrs. F. Dray of New York are registered at the Hollenbeck.

Frank W. Bennett and son of Fort Worth, Tex., are at the Hollenbeck.

Jose G. Morago, mining man from Guaymas, Mex., is registered at the Ramona.

Mr. and Mrs. F. D. Russell and two children are registered at the Westminster.

Mr. and Mrs. George W. Weintraub of New Orleans are among the guests at the Hollenbeck.

Henry S. Markey, Robert B. Blodgett and A. D. Hodges, Jr., of Boston are at the Van Nuys.

Capt. H. J. Toberman left yesterday for Randsburg to look after his interests at that place.

Willis G. Finch, son of W. G. Finch of No. 127 Winfield street, started for San Francisco Wednesday evening to take the next steamer for Guatemala.

A San Diego party on their way from the East, consisting of J. Williams Keenan, Mrs. A. J. Keenan, Mrs. D. F. Macnamee and Mrs. J. K. Rodes, maid and children, are registered at the Van Nuys.

Rev. T. P. Breese, D.D., returned yesterday from Berkeley, where he has been holding a ten days' pentecostal meeting and where he organized the Church of the Nazarene, with Rev. Ernest A. Givens as pastor.

### OLD-TIMER ARRESTED.

Dan Flowers Lodged in Jail for Petty Larceny.

Dan Flowers, well known to the police, is again in jail, and the prospects are that he will go to the penitentiary this time. He was arrested by Detective Frank Steele yesterday on Mateo street, charged with stealing a singletree and necktie from E. N. McDonald of Mateo street.

Flowers was convicted in July, 1885, of stealing a suit of clothes from "Pompey" Smith. When Detective Steele learned this he filed a prior against Flowers, and he was arraigned before Justice Owens yesterday afternoon. His examination was set for tomorrow.

### Licensed to Wed.

Joseph S. Williams, aged 29, a native of England, and a resident of Los Angeles, and Lora Scudamore, aged 29, a native of Illinois, and a resident of Los Angeles, were licensed to wed.

Herman Helms, aged 42, a resident of Los Angeles, and Clara Dietzel, aged 40, a resident of Puente, both natives of Germany, were licensed to wed.

Maurice J. Reynolds, aged 35, a native of England, and Jane Porter, aged 31, a native of Ireland, both residents of Lancaster, were licensed to wed.

Emanuel F. Gerecht, aged 25, and Rosa Rosmek, aged 27, both natives of Russia and residents of Los Angeles, were licensed to wed.

William Gerken, aged 35, a native of Germany, and Mrs. Hannah Kaufman, aged 30, a native of Switzerland, both residents of El Rio, Ventura county, were licensed to wed.

Antonio A. Gamba, aged 23, a native of Italy, and Rose Lagomarsino, aged 26, a native of California, both residents of Los Angeles, were licensed to wed.

Philip M. Feltz, aged 35, a native of Illinois, and Marie Miller, aged 22, a native of Washington, both residents of Los Angeles, were licensed to wed.

### DEATH RECORD.

O'NEIL—On the 21st inst., at his residence, No. 412 East Eleventh, Los Angeles, Cal., Edward O'Neil, a native of Boston, Mass., aged 73 years. (Providence, R. I., and Brockton, Mass., papers please copy.)

## RAILROAD RECORD.

## THE ATCHISON ACCEPTS.

WILL TAKE UP THE ATLANTIC AND PACIFIC BONDS.

Sixteen Millions of Bonds Will Be Paid Off in Atchison General Mortgage Bonds and Preferred Stock—Foreign Bondholders Have Already Agreed to the Deal.

An Associated Press dispatch from New York says the board of directors of the Atchison, Topeka and Santa Fe Railroad met today and voted to accept the proposition that has been pending for the acquisition of the first mortgage bonds of the western division of the Atlantic and Pacific Railroad Company.

These bonds amount in round numbers to \$16,000,000. The plan contemplates the payment by the Atchison of 52 1/2 per cent. of the amount of the bonds in general mortgage bonds of the Atchison, and 57 1/2 per cent. in preferred stock of the Atchison. This was provided for in the plan of reorganization adopted by the Atchison in 1895. It is also provided in the agreement that certain litigation instituted by the Atlantic and Pacific against the Atchison shall be dropped.

The foreign committee of the Atlantic and Pacific bondholders have already agreed to the proposition, and it only remains now that the New York committee shall do the same. This committee is to meet on January 23.

The western division of the Atlantic and Pacific extends from Albuquerque, N. M., to Mojave, Cal., 815 miles of single-track road. It is now operated by a receiver, C. W. Smith.

## SHOUP GOES TO SAN FRANCISCO.

Paul Shoup, assistant agent of the Southern Pacific at San Bernardino, has resigned that position to accept a place in the general passenger office in San Francisco. The vacancy caused by his promotion will be filled by F. G. Randall.

## GRAVEL PIT REOPENED.

Three Southern Pacific gravel trains were dispatched for the desert yesterday. The gravel pit at Whitewater is again being worked, having been opened to supply ballast for the road between Indio and Yuma. Steam shovels are to be used in the pit, and the work will be pushed as rapidly as possible.

## DECLINES TO MAKE A STATEMENT.

NEW YORK, Jan. 21.—The Reorganization Committee of the Union Pacific declined to make any statement regarding the conference held today at the Mercantile Trust Company's office. UNION PACIFIC RECEIVERS REPORT.

## OMAHA (Neb.) Jan. 21.—The gross earnings of the various branches of the Union Pacific system for eleven months of 1896, according to the report of the receivers just issued, amount to \$15,206,698, and for the same period of 1895, \$14,835,435. The expense increased \$188,249, the comparison shows a decrease in the surplus of \$175,410. The earnings of the leased branches for the first eleven months of 1896 were \$52,464 more than those of the same months of 1895. The expense increased but \$31,796.

## VALLEY ROAD BONDS.

## The Company Has Had Several Offers for Its Bonds.

SAN FRANCISCO, Jan. 21.—The directors of the San Francisco and San Joaquin Valley Railway Company expect to receive their \$6,000,000 of bonds from New York some time next week. The proof of the bonds was approved by the directors some time since and returned to New York, when instructions were given to the engravers to have the bonds printed. The bonds have been received, and the printing is now about finished, and the bonds will be shipped to the company's office in this city within a few days. Very soon thereafter the company will be in a position to resume construction work in the San Joaquin Valley. Vice-President Robert Watt says that the company has received several offers for bonds, and he anticipates no trouble in floating enough to complete the construction and equipment of the lines between Fresno and Bakersfield.

According to present calculations, work on the construction of the line south to Fresno will be commenced early in February. The company now has a clear right-of-way as far as Hanford, barring two small stretches of country, to secure which suit will be instituted.

## VICE-PRESIDENT WATT SAYS THAT BY THE TIME THE LINE TO BAKERSFIELD IS COMPLETE THE ENTIRE LINE FROM STOCKTON TO THAT POINT WILL BE BONDED FOR \$15,000,000.

The line from Stockton to San Francisco, which will be a very costly piece of construction, will be bonded for a much larger amount.

## SOCIETY NEWS.

The wedding of Miss Laura Scudamore, daughter of Godwin Scudamore of Lake county, and Joseph Williams, took place very quietly yesterday noon, at the residence of the groom, on Oza street.

The ceremony was performed by the Rev. B. W. R. Taylor. Only the relatives were present. The bride wore a tailor-made gown of dark blue cloth, with hat of black beaver, trimmed with black ostrich tips, and purple ribbons. The rooms were decorated with profusion of white carnations and smilax. The ceremony was followed by a breakfast, at which the bride and groom were present. The bride's room was prettily decorated with white carnations, purple violets and maidenhair ferns. Mr. and Mrs. Williams left for a visit at San Diego, and will be at home after February 1, at their residence on Oza street, near Hoover.

The bride has been the principal for the last two years of a private seminary for young ladies at Stockton and is a very talented and charming woman.

Mr. and Mrs. John Chanslor gave an informal dinner last evening at their home on West Tenth street. The payment of an election wage. The table was prettily decorated with yellow roses. Those present were: Dr. and Mrs. Davidson, Mr. and Mrs. H. M. Sale, Mr. and Mrs. H. P. Anderson, Miss Carrie Thompson of Indianapolis, Miss Bird Chanslor, Woodford Davisson and Walter Chanslor.

The wedding of Miss Sophia Kroeger, daughter of Mr. and Mrs. Kroeger, and Julius M. Ruedy of Portland, Ore., took place Wednesday evening at the Friends Church. The ceremony was performed by the Rev. Mr. Scholz. The Misses Bertha Leutinger and Mary Kroeger acted as bridesmaids and Messrs. Gustave and Fred Kroeger as ushers. The church was elaborately decorated with flowers and evergreens. The ceremony was followed by a reception by the Rev. Mr. Scholz, the bride's parents. The rooms were handsomely decorated with flowers and palms and the grounds were illuminated with Chinese lanterns. A number of valuable presents were received. Mr. and Mrs. Ruedy will remain here until the 28th, when they will leave for Portland, Ore., where they intend to make their future home.

Mr. and Mrs. N. P. Bailey entertained

Which literally means  
the pick of the  
Finest Stock of Men's

SUITS OR OVERCOATS

THAT EVER CROSSED THE COUNTERS OF BUSINESS OR GRACED THE FORM OF MAN.

And such as were selling up to \$25.00 and \$30.00 each.

SUITS AND  
OVERCOATS  
FOR

\$13.75

You get the entire choice of any \$16, \$18, \$20, \$22, \$24 and \$30 SUIT or OVERCOAT in the house—not a single exception, not a solitary reservation—masterpieces of artistic tailoring. They come in PRINCE ALBERTS, FULL DRESS SUITS, IMPORTED ENGLISH CLAY WORSTED CUTAWAYS, SCOTCH PLAID SACK SUITS, and the latest English Plaids. It is almost useless to remark that the early purchasers will undoubtedly pick the best plums—that's a hint that you'll do well to remember.

THE HUB

154-156-158-160 NORTH SPRING STREET.

The only Clothing Store on the Coast Occupying an entire Block.

SUITS AND  
OVERCOATS  
FOR

\$8.25

You take the choice of any \$10, 12, \$13.50 or \$15 SUIT or OVERCOAT in the house—nothing excepted, nothing reserved. They come in SACKS, CUTAWAYS and DOUBLE-BREADED STRAIGHT CUTS, in every kind of material, WORSTEDS, CHEVIOTS, CASSIMERES, ENGLISH PLAIDS. These Suits and Overcoats are the very acme of high art tailoring. The stock is vast, the variety is so large that every taste can be readily gratified, every form easily fitted.

## REDLANDS.

## Bee-keepers are Happy-Favorable Fruit Outlook.

REDLANDS, Jan. 21.—(Regular Correspondence.) A. W. Hatch, recently appointed county bee inspector, speaks very favorably for the prospect of a big yield of honey for the coming year. The generous rains have benefited no class of people more than the owners of bees, as it assures an abundance of forage for the insects. This is gratifying, as past seasons have resulted in very poor returns to beekeepers. As the bees are usually kept along the foothills, few persons have any knowledge of the importance of the industry in this immediate vicinity. That it is important, however, is known to those who have seen the thousands of "stands" kept in secluded nooks about town.

## FRUIT OUTLOOK.

Growers of deciduous fruits are congratulating themselves over the present prospects for a large yield the coming season, and the evidence that will be shipped to a market free of the crop of last year. An inspection of many trees shows them to be heavily laden with fruit buds, and unless there is unseen trouble ahead the crop will be very large. This is true of apricots and peaches about town, which bring such good returns to the city ordinarily. Besides these, there is a prospect of a crop of apples in the Yuba Valley, due to the fact that last season was an off year, and that a considerable acreage of trees will come into bearing for the first time. The Mt. Andrews country with its forty acres of cherries, will for the first time make a liberal contribution of that fruit.

## NOTES AND PERSONALS.

Howard Stevenson and son Fred of San Francisco arrived yesterday evening the guests of Mr. and Mrs. Percy Griffith for a few days.

Miss Mary Cobleigh has returned from a visit of several months in the East.

W. H. Bryant of North Soto street, entertained Mrs. E. B. Crocker and her sister, Mrs. Bender, informally at luncheon, yesterday.

Mrs. Walter Cooley has gone to Randsburg for a short visit.

Mrs. D. G. Stephens left for Sacramento yesterday, in response to a telegram. She will return next week.

Mrs. George King arranged a pleasant surprise party for Mr. King, in honor of his birthday, Monday evening, at the Melrose.

The Apollo Club, under the direction of E. E. Paerson, serenaded Mr. and Mrs. J. T. Newkirk, on Wednesday evening.

Miss Eva May Long and James S. Coulter were married Wednesday evening at Highland Park. The ceremony was performed by Rev. L. F. Laverty, in the presence of a few intimate friends. Mr. and Mrs. Coulter will reside at No. 840 Short street, Los Angeles.

Mr. and Mrs. H. W. Wall gave a Spanish dinner at the Belmont, followed by a box party at the Los Angeles Theater Wednesday evening, in honor of Mr. and Mrs. Schuyler Cole. The other guests were Miss Hamilton and J. M. Austin.

Mrs. A. K. Kellogg of Portland, Or., arrived yesterday and will be the guest of Mr. and Mrs. Lundberg at No. 520 Patton street.

Mr. and Mrs. Walter Harris have returned from their wedding tour and will be at home next Sunday at No. 321 California street from 2 to 5 p.m.

## THE BRUISER FINED.

Policeman Robbins' Assault Severe Dealt With.

Patrick Garrity, the drunken tough who was responsible for the injury to Officer Robbins' eye Wednesday night, was tried in the Police Court by Justice Owens yesterday.

Officer Robbins told the story of the fight in the patrol wagon, and the magistrate, glancing at the officer's discolored optic, imposed a fine of \$50 or fifty days in jail.

## James' Request Denied.

"Cap" James of Non-Partisan fame, was yesterday denied a change of venue by Justice Owens. James, soon after his arrest, made a remarkable affidavit to the effect that he could not secure a fair trial from Justice Owens.

## TO REACH RANISBURG MINING CAMP.

Take the Santa Fe route. Leave Los Angeles 10:15 a.m., arrive Randsburg 9:30 p.m. Through tickets \$4.75.

A Successful Test.  
Yesterday morning a novel test  
was made on one of the Hotel Van Nuy's  
electric elevators. There being some  
doubt as to the working of the auto-  
matic safety device, the elevator was  
run up to the top of the sixth floor and  
all the ropes let loose. The car started  
to come down at a rapid speed, but be-  
fore it had traveled ten feet it was  
firmly and thoroughly locked to the  
steel guides, thereby demonstrating  
that in case of an accident the safety  
devices can be depended upon to save  
the passengers from injury.

OFFICE OF THE TIMES,

"It is most difficult to come to a conclusion as to the probable price of wheat for the crop. There are many factors to be considered. Generally speaking, we are aware that the present demand in India, Australia, Argentina and Russia is very strong. Argentina is deficient in supplies, and it would be difficult to require perhaps two favorable seasons to restore the country to the immense surplus which it has in the several years kept wheat at low prices; but we are reasonably expected to have high figures until the crop is again filled. But the recuperative power of wheat fields is wonderful, and the world's resources are so abundant that the world may recoup its present depleted stores in a very short time. The reason that the stimulus, as anyone may observe in his own country, is that the expected wheat output will be less than before. On the other hand, we may look at France, for an example. For years the people of France have had to have been good and have supplied all local requirements, the stimulus being that the people of France had no wheat was a large buyer and invariably

## PASADENA.

## ARRANGEMENTS FOR THE ANNUAL BOARD OF TRADE BANQUET.

Accessions to the List of Members. Lawbreakers Receive the Penalty of Their Misdeeds—Two Anonymous Culprits—News Notes and Personal.

PASADENA, Jan. 21.—(Regular Correspondence.) The quarterly meeting of members of the Board of Trade, to be held next Monday afternoon at 6 o'clock, promises to be an interesting occasion. Secretary Frank P. Boynton has prepared a report which will give some valuable information. After the business meeting is concluded the members will adjourn to the Green for the annual banquet. Only the active members have been invited to attend. It is expected that about one hundred will be present at the banquet. Tickets can be obtained from the secretary or from any of the directors. Secretary Boynton says that the names of six new members were added to the roll today.

**THE LAW'S VICTIMS.**  
S. H. Churchill's address for the past thirty days will be at the County Jail. Recorder Rossett suggested this temporary change of residence. Churchill needs no introduction at the jail as he served a term of six months some time ago. He is a familiar figure in Pasadena. The charge upon which he was arrested today was disturbing the peace.

Two other offenders against the stern majesty of the law were also brought before Recorder Rossett today. They were guilty of the heinous crime of riding bicycles on the sidewalks. The offenders are well-known young men who evince strong desire to remain anonymous. They were with yesterday with a party of friends for a spin on their wheels. They explained today that the party had just lined up to have a picture taken when Marshal Lacy appeared upon the scene. His arrival was most untimely, for the two young men of the name series happened at the moment to be on the sidewalk with their wheels. The culprits were promptly arrested by the officer and today they were arraigned before Recorder Rossett. Notwithstanding the gravity of their offense some consideration was shown. So far as known neither of them had ever before been convicted of a crime nor could it be proven that in this instance they were guilty of any positive criminal intent. Their youth also appealed strongly to the sympathy of the court and they were therefore allowed to go upon payment of a \$5 fine. In the hope that this experience may prove a warning which will lead them to give up their ways, and out of regard for their friends and families, the names of the malefactors are withheld.

**PASADENA BREVIETTES.**  
Lillian Watson, a four-year-old daughter of the proprietor of Hotel Mitchell, had a narrow escape from very serious injury this morning. While riding a tricycle on South Fair Oaks avenue, she was accidentally pushed off the sidewalk by a playmate and fell to the foot of a horse which was galloping. The animal was badly frightened and trampled upon the child's arm, bruising it badly, but not inflicting any serious injury. The horse then snatched its halter and dashed down the street, throwing out another child who was in the buggy, but who escaped unhurt.

Recent arrivals at the Green include: Mr. and Mrs. F. Frost, E. J. Jackson, Chicago; Mrs. C. A. Wendell, New York; Mr. and Mrs. Frederick S. Newell, Chicago; Mr. and Mrs. L. A. W. Brown, Brooklyn; W. H. Powers, San Francisco; Mr. and Mrs. John M. Deane, Los Angeles; Mr. L. Budington, Providence, R. I.; Mr. and Mrs. W. H. Reddell, Denver; W. E. Cress, Des Moines, Iowa; Mr. and Mrs. George P. Jennings, Chicago.

The Pasadena Academy of Sciences, which flourished here some eight or ten years ago, is to be revived under the leadership of Prof. C. F. Holder, curator of Throop Museum, and Prof. E. Hoar, instructor in biology at Throop. Friday evening the first meeting will be held in the east hall of Throop Polytechnic.

The members of the Pasadena Oratorical Society have been invited to attend the presentation of the "Messiah" in Simpson Tabernacle, Los Angeles, on January 28. Particulars can be obtained from O. Stewart Taylor.

Lillian Ashley says in reference to the decision of Judge Slack rendered against her in her suit against millionaire E. J. Baldwin of San Francisco for seduction, that she will appeal to the Supreme Court at once.

The Chess club, which meets at the house of David Heap, North Raymond avenue, this is the second regular meeting of the club, which has a growing membership and promises to become popular.

The Wheelwomen's Club will meet at No. 314 Arcadia street Friday afternoon at 2:30. The club is to be organized and the members of the club will then take a spin upon their wheels.

Pasadena has a new publication, the American Anti-Saloon League Standard. The paper will appear upon the first and third Wednesdays of each month.

The January number of the Polytechnic, published by the students of Throop, has just been issued. The magazine is a very creditable production.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter for sale by local agents; price, 10 cents.

A reception and dance were given this evening at the Auditorium by Miss Greer and the Misses Hubbard of Raymond avenue.

There is a slight improvement this evening in the condition of Street Superintendent Burman, although he is still seriously ill.

Miss Jessie Louisa Sholes of Chicago and Mrs. Nathan Weston of Boston are recent arrivals at the Crown Villa.

Do not waste cast-off clothing. "Economy is the road to wealth." It also enables those already wealthy to help the destitute. Save from moth and mold your old, partially worn garments that can be made over into children's clothing. Anything of the description left The Times branch office, No. 47 East Colorado street, Pasadena, will be useful in supplying those much in need. No matter how small the amount you have, or how badly worn, it will be useful to those with no money to buy new.

You can have the Los Angeles Daily

## ORANGE COUNTY.

## THE SANTA ANA CHAMBER OF COMMERCE SETS TO WORK.

Starts Out with New Energy and Promises Great Things—Attempts to Take His Life, But Is Taken Away from Home—News Notes.

SANTA ANA, Jan. 21.—(Regular Correspondence.) The new board of directors of the Chamber of Commerce of this city have taken the bit in their teeth, so to speak, and is stirring things up in general in the county. From present indications the ensuing year will witness many important measures that will have been brought about by the enthusiastic work of that organization.

But an endeavor in the way of improvement in this line meets a serious obstacle. The State constitution provides that cities having less than 3000 population shall be governed by a general law, thus permitting cities having more than that population to have special charters. But a careful search of the statutes has failed to discover any means of officially determining the population for a case of this sort and it seems to be doubtful whether the next Federal census will settle the question. If this question be disposed of, there appears to be much doubt as to the procedure necessary to adopt a new charter.

Unofficially it is known the city's population exceeds 3000. The last census was taken by School Census Marshal Lowman last spring and it was found then to lack only sixty or seventy of the figure given. The increase in population since that time would more than make up the deficiency.

**A SEAMAN HURT.**  
Eric Malmson, a sailor on the collier Peter Jensen, was hurt by an accident while aboard that vessel, this morning. Malmson fell from the rigging of the Southern Pacific wharf at Port Los Angeles, and is discharging coal. He was standing by one of the front chocks around which a mooring hawser ran. A heavy jerk on the line, caused by a swell, brought such a strain on the chock that it gave way. Malmson was caught so that his head came on his left leg, which is supposed to have been broken. He will probably be taken to the marine hospital at San Pedro.

**SANTA MONICA BREVIETTES.**  
The steamers Peter Jensen and Minola are discharging coal at Port Los Angeles, and the steamer Lakme is discharging lumber. A hand-drawn brick block, 80x25 feet, is to be erected on the west side of Third street, not far south of Oregon avenue.

The High School trustees will meet Friday morning to consider plans for a new High School building. Mr. M. G. Gindler has been appointed Justice of the peace to succeed E. E. Barackman, who has resigned on account of ill health.

Hugh Walters, keeper of the Alla Gun-Club preserve, was assaulted and beaten in ugly fashion Tuesday night. Shortly before midnight Walters was in the company of three men who went to get on the land occupied by the club. They attacked him and one of them, John Patterson, at National City, shot him down. Walters was taken to the hospital and is now recovering.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

**SAN DIEGO COUNTY.**  
Preliminary Examination of Black for the Murder of Patterson.

SAN DIEGO, Jan. 21.—(Regular Correspondence.) The preliminary examination of John Black, for the murder of John Patterson at National City on the night of December 23, was begun yesterday before Judge Bryan.

A. C. Copeland, a brother-in-law of Patterson, testified that he engaged Patterson to go to the beach and watch it. Dr. H. E. Platt, who held the post-mortem examination, told how the victim came to his death. M. A. Baird and Conrad Johnson related how Patterson was found, and testified as to the testimony before the coroner's jury.

Black's companion on the night of the murder was the man who was mistaken when he said that Black told him after the murder, "I hope to God I have killed the man." This was the charge upon which the prosecution hinged its case. Mitten was closely questioned by Attorney James C. Allen, for the defense, who dealt upon the fact that Mitten was not under arrest, and Mitten was asked whether or not he had been promised immunity, if he would stick to his story, or the other way around, as he said he understood he was not to be put under arrest. The examination will be concluded this morning.

**THE CITY LANDS COMMITTEE.**  
The City Lands Committee of the Council will meet tonight to consider the matter of squatters' rights to the water front lands claimed by the Southern California Railroad Company. It is said by many that these lands are titled in tide lands, and owned by the State or city. The Sheriff is about to begin active operations in the work of eviction, and at least two of the squatters have threatened to resist eviction.

The committee will also consider the matter of granting the Knights of Pythias a portion of the City Park for the World's Pythian Home.

**THE FUENTES TRIAL.**  
Arguments began this morning in the Fuentes murder trial in Department One of the Superior Court, the evidence having closed last evening. The principal evidence of the day was the examination of character witnesses. Deputy District Attorney Kirby opened the argument and was followed by L. A. Wright for the defense. The case will reach the jury tonight.

**SAN DIEGO BREVIETTES.**  
The cottage of Mrs. John G. G. Ash street, was destroyed by fire last night. The fire was caused by the explosion of a gasoline stove. The loss was \$600.

Five men, who were imprisoned for sleeping in a room not containing 500 cubic feet of air, as laid down by the law, will be brought before Judge Hughes today on a petition for a writ of habeas corpus, to test the validity of the act.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

Council No. 13, A.P.A., of Santa Ana held its first annual meeting in G. A. R. Hall, Wednesday evening. Several other matters discussed was, "Should we have a State and National Bureau of Information?"

William Higgins is the name of a vagrant brought from Anaheim Thursday and placed in the County Jail to serve out a twenty-days' sentence for disturbing the peace.

Dr. Richard J. Hall was reported being this morning; he passed an easy night, though he suffered several

## COLTON.

## Sequel to the Death of Jason C. Hubbard.

COLTON, Jan. 21.—(Regular Correspondence.) Some months since news of the death of Jason C. Hubbard from an accidental discharge of his pistol was received from Col. Colton. He had with him two friends named Spence and Nelson. All three were young men from this city. The details of the death as received here leave no doubt that it was purely accidental. Yet it seems the friends of Hubbard are in jail charged with murdering him.

At the time Hubbard shot himself Spence and Nelson, their friends called, were a great distance from the house engaged with native boys in mending a fence, when they returned to the house and found Hubbard's body lying on the floor they called in to notify the authorities of his death.

On November 17 Spence and Nelson prepared to leave for California, but were arrested by the authorities of Buena Ventura and imprisoned for the murder of Hubbard. At the time the arrest was made they were ignorant of the charge against them.

The friends of the young men have appealed to the State Department for assistance. The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

## SANTA BARBARA COUNTY.

## THE COUNCIL CONSIDERS THE WATER QUESTION.

## Electric Cars Will Run Throughout the County—The Mules Must Go—Burglary at Los Alamos—No Capture Made.

SANTA BARBARA, Jan. 21.—(Regular Correspondence.) The Common Council met this afternoon, and the splitting-reform ordinance passed its final reading. When the ordinance came up for consideration the last meeting, it was supposed that it would be rushed through under suspension of rules, but unexpected opposition was encountered. Councilman Caesar Lat-tallade objected to it because it would be in violation of the constitution, and the ordinance was finally passed, unanimously.

Supervisor W. A. Hayne, Jr., of Montecito, asked the Council to provide for the repair of the new boulevard extension, stating that recent rains had badly washed the roadbed, and, unless some steps were taken, it would be in very bad condition before the end of the winter. The matter was referred to the Street Superintendent and City Engineer, with power to act.

Reports of the two water companies were read. The Santa Barbara Water Company reported a revenue of \$10,000 for the year 1896, as amounting to \$27,817.47; from rent of land, \$150. The expenses of the company are given as follows: Salaries, \$400; operating expenses, \$4608.70; repairs, \$197.68. Construction account, including preparatory work, in the Juneal district, \$10,000. The company also reported a revenue of \$10,000 for the year 1896, as amounting to \$27,817.47; from rent of land, \$150. The expenses of the company are given as follows: Salaries, \$400; operating expenses, \$4608.70; repairs, \$197.68. Construction account, including preparatory work, in the Juneal district, \$10,000.

A petition, signed by many names, was left with the Council to appropriate \$5 per month for the winding of the old town clock. The petition was referred to the City Engineer, who is understood that the clock will be started again within a few days.

An ordinance was passed prohibiting the use of the streets by teams, on the streets unless with the written consent of the property-owner or tenant in front of whose place the vehicle was to pass.

A special meeting will be held on Saturday, January 30, at which time the Council will consider matters relating to the water question.

**A GASOLINE STOVE EXPLODES.**  
The explosion of a gasoline stove in the San Francisco lunch house and saloon on West Cota street at 11 o'clock today threatened a destructive fire in the quarter. The Alamosa and the fire resulted. The fire was soon under control, and the services of the department were not needed.

**THE MULES MUST GO.**  
It is said that in two months the mule case will be a thing of the past as the Consolidated Electric Company is rushing the work of putting in lines throughout the entire system. As soon as the grading of Victoria street is finished, the mules will be running to the Mission, and the boulevard will be accommodated with the electric service in a few weeks.

Change, as the officers state that it costs more to keep the mules short than it would to pay for the entire system.

**BURGLARY AT LOS ALAMOS.**  
The Sheriff's office has received reports of a burglary at Los Alamos, early in the present week. The general store of L. Kahn was entered and a quantity of clothing and other goods were stolen. The merchant has offered \$50 reward for their capture. The Sheriff has detailed officers to look into the matter.

**SANTA BARBARA BREVIETTES.**  
Ada Shrewsbury yesterday afternoon paid a fine of \$5 in the police court for violation of a city ordinance in riding a wheel on the sidewalk.

Last evening the young ladies swore out a complaint in Justice Crane's court charging the late Mayor with battery. Later, it was reported that the charge would be withdrawn.

Mrs. Miller, wife of the late Mayor, and her brother, returned north yesterday, after spending several weeks in this vicinity looking for her in the town of Orange.

The Santa Barbara Naval Reserves are waiting anxiously for some news from the State Legislature; they hope for an appropriation and a bill authorizing the permanent organization of the organization.

The Labor Exchange will be in full operation in Santa Barbara next week. The association has 120 members. The store will be managed by M. A. Yeager, who is president of the exchange.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

Dr. Richard J. Hall was reported being this morning; he passed an easy night, though he suffered several

## hemorrhages of the bowels yesterday afternoon.

## RIVERSIDE COUNTY.

## THE COUNTY HAS OUTGROWN ITS CLASSIFICATION.

## School Census as a Basis for a Change in the Delicate Water Rate Problem—Rumors of a Republican Newspaper to Be Started.

## RIVERSIDE, Jan. 21.—(Regular Correspondence.) There seems to be no doubt that the classification of this county is a decided misfit. When the county was created, the commissioners placed it in the twenty-fourth class, with a population of 1890 as a basis. Now the situation is that Orange county is making an effort to cut down the county expense, while in this county the allowance of the law is found entirely inadequate to meet the unavoidable expenses, as the population here is greater and the number of school districts, and acreage of land far in excess of that of Orange county. It is manifestly impossible for the two counties to be governed on the same basis where the conditions are so different.

It has been proposed to raise the classification of the county to the thirtieth class, and this raises the question whether any other basis of action can be taken than the census of 1890. When the area of San Bernardino county was decreased by the creation of Riverside county, the Supervisors of the former county made a reclassification, under the provisions of law, in which the same question was raised. The Supervisors took the school census of the county and made a reclassification, under the provisions of law, in which the same question was raised. The Supervisors took the school census of the county and made a reclassification, under the provisions of law, in which the same question was raised.

While there is considerable criticism of the methods pursued in this coup d'etat to annul the action of the committee, by a mere fraction of the committee, the feeling has existed that the league was vulnerable. It does not appear that the various office-holders of the county were given a hearing or that any information about street rumors was at hand in fixing the schedule of proposed salaries. Instead of the proposed salary list being adjusted in accordance with intimate knowledge of the requirements of the offices, a sort of catch-catch-can policy was resorted to.

Under the circumstances, there is a marked division of sentiment regarding that action or will adhere to instructions from the full committee or will drop the matter entirely, awaits to be seen.

**SAN BERNARDINO BREVIETTES.**  
Lester Perdue died Wednesday evening of pleuro-pneumonia at the age of 23 years.

Frank West, who some time ago was accused of stealing a large quantity of goods from Mettler's hardware store, is on trial before Judge Oster.

The tax rolls of the city just turned over to the City Marshal show that the delinquent tax list will be smaller than last year, which indicates heavy payments of taxes during the past few days.

The Midwinter Times, 48 pages and colored cover, 189 illustrations; full of interesting matter. For sale by local agents; price, 10 cents.

The Westwoods Finest. Bell and Jennie Westwood, the Philadel-phia street-woman, who was arrested on charges of battery at the instance of Mrs. M. L. Martin, a neighbor, were fined \$5 each by Justice Morrison yesterday. The quarrel arose over the building of a fence and the trial of the case consumed four days. The Westwoods took an appeal from the magistrate's decision.

[Kansas City Star.] Among his other claims to distinction must be counted the fact that President Kruger has as many grandchildren as Queen Victoria. The Boers seem to be able to hold the British level on any sort of a layout.

## PHYSICIANS INVESTIGATING IT.

## BUTCHER'S DIRECT CONTACT METHOD

## For the treatment of Consumption, Asthma, Bronchitis, Catarrh, Etc.

## Quite a number of physicians are indorsing Butcher's Direct Contact Method by recommending it to their patients, assuring them that it is the only safe, positive and rational method.

## During the past week, several reputable physicians suffering from the above named diseases, after being shown to their entire satisfaction that any suitable drug can be applied directly to the diseased surfaces of the air-passages, have employed this "Method" in their own families, with the most gratifying results.

Several have said: "Yes, this is just my idea; I have always thought that to get favorable results medication must be carried to the diseased surfaces; you undoubtedly have accomplished this purpose."

The following letter has been received from R. D. MacArthur, M.D., one of the professors in the Chicago Medical College, in reply to an inquiry made by a physician of this city:

Chicago, January 16th, 1897.

Dear Doctor:

Both my nephew (D. R. McMartin, M.D.) and myself have used "Butcher's Direct Contact Method," with a great deal of satisfaction and benefit to patients, and I am sure if you will give it a fair trial in suitable cases, you will be very much pleased with its use.

Sincerely Yours,

R. D. MACARTHUR, M.D., 414 Dearborn Avenue.

We trust that other Physicians in and out of the City will call and see that the "Direct Contact Method" is all we claim for it.

J. B. BUTCHER, M. D., 155 North Spring Street.

W. E. PRITCHARD, M.D., Consulting Physician. Office Hours, 10 to 4.

## SAN BERNARDINO COUNTY.

## ACTION OF TAXPAYERS LEAGUE KNOCKED OVER.

## A Small Minority of a Committee Overthrew the Acts of a Full Committee—The Delicate Handiwork of Shrewd Politicians Revealed—News Notes.

## SAN BERNARDINO, Jan. 21.—(Regular Correspondence.) There is war in the ranks of the Non-Partisan Taxpayers' League. Someday's eleven of the thirteen members of the Executive Committee of that organization assembled for the purpose of deciding on a schedule of salaries for the county officers. After considerable discussion, a schedule was prepared and published. Under the constitution of the Executive Committee has the power to act for the league, and five members constitute a quorum of the Executive Committee. Yesterday six members of the committee got together, without giving other members due notice of the meeting, and amended the schedule adopted by eleven members. Those who were present were: Victor, John Anderson, president; J. N. Victor, Seth Marshall, A. L. Wright, Dr. Hurley and P. B. Hockaday. It is said that President Anderson, who was in the chair, there were five votes to be cast, and that the change in the schedule of the assessment office and three members of the committee, Victor, Marshall and Wright.

Members of the Executive Committee had a conference with three members of a committee of thirteen should assume to overthrow an important decision rendered by a meeting of eleven members.

The principal change made yesterday was the proposed salary of the assessor from \$2800 per year to \$3600, though a number of minor changes were made. It is said that the reason for making the changes was that Mr. Marshall had made a careful investigation of the salaries of the assessor and had found that it would be impossible to conduct the business of the office on the proposed salary.

While there is considerable criticism of the methods pursued in this coup d'etat to annul the action of the committee, by a mere fraction of the committee, the feeling has existed that the league was vulnerable. It does not appear that the various office-holders of the county were given a hearing or that any information about street rumors was at hand in fixing the schedule of proposed salaries. Instead of the proposed salary list being adjusted in accordance with intimate knowledge of the requirements of the offices, a sort of catch-catch-can policy was resorted to.

Under the circumstances, there is a marked division of sentiment regarding that action or will adhere to instructions from the full committee or will drop the matter entirely, awaits to be seen.

## HOUSE AND LOT.

## EASTERN BUYERS CAREFUL ABOUT INVESTING.

The New City Ordinance Establishing a Limit for the Boring of Oil Wells.

## ABOUT STREET PAVEMENTS.

## MUD, EUCALYPTUS BLOCKS AND ASPHALTUM.

First-street Sale—Westlake Car Line Extension—Cahuenga Valley—Big Price Paid for a New York Building.

The local real estate market still continues quiet, without any noteworthy changes since the last report. There are many inquiries from eastern people for property, but comparatively few trades are made, and many of the dealers express some disappointment, stating that the business conducted thus far has not come up to their expectations.

It is now ten years since great expectations have been built up every spring on the business that would be done in the opening months of the year with new arrivals from the East. As a rule, these expectations have not been fulfilled—or only partially fulfilled. The fact is that as the Times has previously pointed out, the Los Angeles real estate market no longer depends for its activity on the trade of a few months in the spring, the business being more or less distributed throughout the year. Many of those who come from the East in the spring, with the view of purchasing property here, wisely made up their minds to stay and make a thorough investigation of the situation before they invest their money. In this way, it often happens that people who come here with a view of settling, and purchasing property soon after New Year's do not invest their money until late in the summer or fall. In some cases these people stay here a year or more before they pick out a home. The result of this course is better, both for the buyer and the real estate agent. On the one hand, a buyer is more apt to be satisfied with the selection, and on the other hand, the real estate business of the year is more distributed over the twelve months, instead of coming with a rush in the first two or three months of the year.

The adoption of the new charter would doubtless have had the effect of stimulating real estate investment, as it tended toward a decrease of taxation.

## RESTRICTING THE OIL WELLS.

The strong opposition which developed among property-owners in the Westlake Park region to the further inroads of the oil men in that section, to which reference has been made in this department during the past few weeks, took the shape of an ordinance restricting the boring of wells within 2000 feet of a public park, which was presented to the Council for its approval.

To those who are acquainted with the oil situation in the city, it was evident that such an ordinance as this would meet with the strongest kind of opposition from the oil men, as, indeed, it should have done. Such an ordinance would have covered the territory between Court and Temple streets, in which there are a score or more of producing wells. Not only this, but the territory would also have been of value for oil than for residence purposes, so that it would have been a hardship, not only on oil men who might wish to lease land, but also on property-owners who would neither be able to use their land for residence purposes or for oil.

Then, again, the 2000-foot limit would have covered the territory in the neighborhood of College and Adobe streets, where the oil men have developed oil in paying quantities. That section there are no improvements of great value, and there would be no complaint against boring for oil, but rather the opposite.

These facts were recognized by those who urged the restrictive measure, and a new ordinance was prepared, which was passed by the Council on Tuesday. This ordinance forbids the drilling or operation of oil wells within 1000 feet of the exterior boundaries of any public park in the city, except Elysian and Echo parks, around which parks the boundaries are fixed at 800 feet.

This is a far more satisfactory ordinance, and will work little hardship to the oil industry. The 1000-foot limit from Westlake Park extends in an easterly direction about as far as Union avenue; in a northeasterly direction to Ocean View avenue; and in a line extending to the city limits on the west; almost to Tenth street on the south, and on the southeast to Ninth street, including all of the Bonnie Brae tract, where there are a large number of fine residences.

The 800 feet from the Echo Park extends about one block beyond Temple street on the south; to Edgeware Road on the east, and about to the corner of Temple and Brent streets on the southeast.

The 800-foot limit from Elysian Park extends on the south to a line about half a block north of College street, so that it does not interfere with the wells near College and Adobe streets.

While the ordinance is, as stated, much more satisfactory than the one first proposed, it is still far from perfect, as it does not protect many residences of the city that are not within 1800 feet of a park. It is true that no indications of oil have yet been discovered in the southwestern part of the city, but there are some who believe that it is only a question of boring to an extra depth, rather than to develop oil. Should any effort be made the City Council would doubtless take steps to extend the protected territory.

few who have made money out of oil boring. The reason is that wells have been sunk so absurdly close together that the land has been drained of its oil deposit, leaving little margin for profit over the cost of drilling, and in some cases, while the oil was selling at a very low price, leaving a margin on the wrong side of the ledger. If about one well had been sunk to the acre, instead of from ten to twenty, the oil men would have all made money, and the same amount of oil would have been developed, although it was exhausted. This course, however, was impracticable, for the reason that the territory is all cut up by oil lots. When a man sank a well on his lot, his neighbors on each side were naturally anxious to sink also, and tap the oil deposit before it was exhausted. The lesson of it all is that the profitable end of the local oil business lies in the organization of companies with sufficient capital to bond acreage in the neighborhood of the city, and thoroughly exploit these sections in which there are good indications of oil. Then, as the territory is all cut up by oil lots, can be drilled to develop the deposit in an economical, business-like manner. Meantime, it would pay owners of adjacent lots to share the expense and receipts, instead of each man sinking from one to four wells on his lot.

WESTLAKE CAR LINE. About six months ago the Los Angeles Railway Company obtained a franchise for the extension of its line on Seventh street, west of Alvarado to Rampart street, west of Westlake Park. Property-owners assisted the company in obtaining the franchise, on the understanding that work on the line was to be commenced at once. They state that the company promised Mayor Fletcher there would be no delay, and it was only under this stipulation that he signed the ordinance. Now, six months have elapsed, and nothing has been done.

This matter of obtaining franchises from the city, for little or no consideration, and then not building a road, has been far too common in the past. By aid of a complacent Council, it is the easiest thing in the world for a street car company to obstruct competition in this manner, by tying up the streets. The statute which allows companies eighteen months' time in which to build a road should be modified, so that only companies which really mean business could obtain franchises. It is far enough that the city should have been giving away such valuable franchises for nothing, or next to nothing, and the least that can be asked in return is that the company should build the road, and the companies shall carry out the improvements they agree to make.

CAHUENGA VALLEY. Quite a number of people have driven out into the foothills of the Cahuenga during the past few weeks, to look at the new park site. The new park has already proved to be a good advertisement for that attractive section, and many improvements are already being made. Among other things, there is a rumor about the erection of a big tourist hotel in the foothills, near the new park. There are several excellent sites for such a building in that section, commanding wide views of the surrounding country, in a section that is almost entirely frostless.

## SALE ON FIRST STREET.

The recent sale of the property on First street, adjoining The Times building on the east, by Judge O. Jerome Flagg of New Orleans, for \$30,000, shows that the value of property in this section of the city is holding its own. The lot is 40 feet front by only 30 feet deep, the improvement consisting of a three-story brick building and basement, not of very great value. As

The Times recently mentioned, several lawyers and others who some time ago moved into the large blocks around Third street have found it inconvenient to go so far from the Courthouse, and have moved up north again. These who count on a sudden shifting of the business center from its present location to a point somewhere in the neighborhood of Seventh street are likely to find themselves much disappointed. That the business center will in course of time be somewhere around Seventh street and Broadway, there is no doubt, but it will be quite a while, and meantime the cross streets between First and Seventh will fill up with business buildings.

## PROPERTY-OWNERS AND ASPHALT.

In the case of James E. Rhodes et al. vs. the Board of Public Works, Denver, Colo., to determine whether or not citizens have the right to demand in the asphalt paving for which they are assessed a certain kind of asphalt, the Board of Public Works is asking the Court of Appeals for an early decision, so that whatever weak provisions there may be in controversy between the citizens and the Board of Public Works, they may be remedied by the next Legislature. The citizens of the city of Denver, who have been assessed for the cost of paving the streets, are asking the Board of Public Works, which resulted in the institutions of proceedings against the board. The preamble of a resolution passed by the board recites that the public improvements are involved in the early settlement of the dispute, which has hindered the progress with undertakings of vast public importance.

## BIG PRICE FOR A BUILDING.

What is said to have been the highest price ever paid for a building in New York was that bid by a syndicate for a fifteen-story skyscraper at the corner of Nassau and Liberty streets, which was recently sold for \$2,058,291. The Real Estate Guide says: This building, though of massive and thorough construction, is one of the best corners for an office building in the city, has been an unlucky venture for the builders from the beginning. The syndicate by which it was erected was made up mainly of the architect and principal contractors and supply men. They were beset and afflicted with strikes during the progress of construction to such an extent that the building was not finished in time for the renting season last spring, and the owners therefore missed substantially an entire year's income. The interest charges and operating expenses have accumulated upon them because of this, so that the cost of the property, it is said, was somewhat over \$2,000,000. It was sold under a first mortgage, given to secure balances due to contractors, material men, and the architect.

## SECOND-STREET HILL.

Every mile of street that is graded in the hill section increases the flow of water into the lower part of town after a rain. One of the streets that then becomes something like a mountain torrent is Second street, which brings down loads of mud and gravel after every downpour. Gravel is spread on the top of the hill, only to be washed down again after a rain, clogging the thoroughfares below. The property-owners in the neighborhood are loud in their demand that this street should be paved to the top of the hill.

## EUCALYPTUS PAVEMENT.

While on the subject of street paving, it should be mentioned that eucalyptus paving, regarding which there has been much talk in San Francisco during the past year, is said to have proved a failure in New York. The New York Herald says: "The Australian wood pavement that

was laid on West Twenty-second street between Broadway and Fifth avenue as an experiment a year ago, has proved a failure. The pavement was laid with a view to getting the city to adopt it on certain thoroughfares where the traffic was not particularly heavy. The Commissioners of Public Works had considerable trouble with it, and numerous complaints have been made of its unsatisfactory condition. The weather the horses driven over this pavement would slip, and the Commissioner of Public Works has had to sprinkle sand over it in order to avoid serious accidents."

It is probable that there must have been something wrong about the variety of eucalyptus wood used in this case, or in the method, as eucalyptus pavement has been successfully used for many years in Australia. There are something like 200 varieties of the eucalyptus, and some of them are much better adapted to paving than others.

## MUDDY STREETS.

One of the object lessons of the recent rain is the deplorable condition of some of the streets that have been graded and improved at large expense to the property-owners. The Times has frequently called attention to the filthy condition of the streets, and the throwing loads of gravel and sand on top of a clay foundation, and then leaving the street to the wear and tear of hoofs and wheels. In the case of a street upon which there is much travel, it only takes a couple of days after a heavy rain to change the appearance of the streets into that of an improved country lane. Except for over-coming hills and depressions, many of the graded streets might almost as well have been left in their primitive condition. It should certainly be possible to secure a more satisfactory method of making streets than this. One improvement over the common method of porphyry paving, to a successful job of which, on Angeleno Heights, The Times has recently called attention.

## STREET CLEANING.

The Street Superintendent of Kansas City has been sending out inquiries for the purpose of ascertaining what the cost of street cleaning is in various cities of the country. Among the replies received are the following: "Providence, R. I., has 32.50 miles of paved streets. Amount appropriated for cleaning and maintaining same \$200,000. It was sold under a first mortgage, given to secure balances due to contractors, material men, and the architect."

St. Louis has seventy miles of paved streets; the cost of cleaning asphalt streets per mile, \$7.02; cost of cleaning other streets, \$5.84.

St. Paul, Minn., has only fifteen miles of paved streets, but it costs \$20 a mile to clean them.

San Francisco has ninety miles of paved streets; the amount appropriated for cleaning them is \$207,470; it costs \$10.60 per mile to clean the asphalt streets.

Boston has only ninety miles of paved streets, and it costs \$15.95 per mile to clean them.

Pittsburgh has 100 miles of paved streets; the amount appropriated for cleaning them is \$235,500; amount appropriated to clean dirt streets, \$205,000.

## INCOMPETENT ARCHITECTS.

A movement was recently inaugurated by the Illinois Chapter of the American Institute of Architects, favoring a system of State licensing of architects. The National Builder gives the following particulars of this measure: "The original bill was presented two years ago, and provides that the Gov-

ernor shall appoint a State board of examiners of architects, to be composed of five members, one of whom shall be a member of the faculty of the Illinois State University, and the other four shall be architects residing in the State of Illinois, who shall hold examinations of applicants for licenses to practice architecture. The examination shall have special reference to the construction of buildings. If the result of the examination shall be satisfactory to a majority of the board, on payment of a fee of \$15 to the board, a certificate shall be issued. Upon payment of a fee of \$2, a license to practice architecture in the State shall be issued. Within six months after the passage of this act it will be unlawful for any person to practice architecture without a license."

## BUILDING.

The Builder and Contractor notes that plans are being prepared for a four-story brick building to be erected on the west side of Spring street, between Fourth and Fifth streets, for L. Harris, of the firm of Harris & Evans, to cost \$35,000. Also for a story residence for E. M. Lewis, to be erected on Thompson street, between Twenty-first and Twenty-second, cost \$23,000.

## MORTGAGES AND RELEASES.

The Investor publishes the following statement of the mortgages and releases for the week ended the 16th, which is for five days only, Saturday having been a legal holiday:

## HELP FOR THE BOYS.

Contributions Acknowledged by the Newboys' Home.

The ladies of the News and Working Boys' Home Society have received the following list of miscellaneous donations within the past few months, for which they return many thanks. Baldridge, medical and Col. Otis, \$250 worth of furniture and carpets.

## Slapped Her Face.

Eugene Baxter, the Los Angeles street man who was arrested on a charge of battery preferred by Mrs. Andrew Jackson, was arraigned in the Police Court yesterday and his trial was set for today. The complainant charges Baxter with slapping her face in a quarrel over the ownership of a clothes line.

The highest claim for other tobacco is "Just as good as Durham." Every old smoker knows there is none just as good as

**Blackwell's BULL DURHAM Smoking Tobacco**

You will find one coupon inside each two ounce bag, and two coupons inside each four ounce bag of Blackwell's Durham. Buy a bag of this celebrated tobacco and read the coupon—which gives a list of valuable presents and how to get them.

**WHOLE SOME?**

Yes—if shortened with Cottolele. Don't give up your pie but have it made with Cottolele. It can then be eaten—generously—without fear. Biscuit made with

**COTTOLENE**

are light, flaky, digestible.

Look for the trade-mark—"Cottolele" and cheer's head in action-plaster—on every tin.
